INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period:	
MATTS CREEK	Date/Time From: 11/24/2023 0700 FRI	Date/Time To: 11/24/2023 2000 FRI
3. Objective(s): <ul style="list-style-type: none"> Ensure firefighter and public safety by using strategies and tactics that mitigate known and anticipated hazards while providing for the highest probability of success. Minimize impact to communities, infrastructure, public, and private lands. Limit acreage burned through direct and indirect suppression tactics. Utilize minimum impact suppression tactics to limit negative impacts to highly valued resources and assets such as the Blue Ridge Parkway, James River Face Wilderness, and the adjoining potential wilderness area. Continue to make progress on repair and rehabilitation tasks in line with the suppression repair plan. Provide timely and accurate dissemination of information to cooperators, the general public, fire-adjacent residences, and jurisdictional agencies. Foster and maintain relationships with our federal, state, local, and Tribal government fire protection cooperators. Keep these entities informed of management goals, objectives, successes, and challenges on the incident through various update mediums. Manage costs to keep them commensurate with the values at risk. Decisions will be made with the goal of managing firefighting resources at a level to meet protection objectives in the most effective, efficient, and safest means possible while employing minimum impact strategies and tactics to the extent possible. 		
4. Operational Period Command Emphasis: <ul style="list-style-type: none"> Utilize aircraft where appropriate and can be most effective. Continue to scout primary and secondary contingency lines. Continue to look for opportunities to limit fire footprint utilizing natural and manmade features. Prevent spread of fire to communities and National Forest lands using Hunt Club Road, Blue Ridge Parkway, Petites Gap Road (Forest Road 35), Trail 3004, and Locher Tract Field as targeted boundaries. Stop, think, discuss, then act and ensure LCES is in place prior to engaging the fires. Ensure that the Matts Creek fire receives a strategic, risk-based response commensurate with the threats and opportunities and uses the full spectrum of management actions that consider fire and fuel conditions, weather, values at risk, and resources available. 		
General Situational Awareness: LCES; steep and rocky terrain...watch footing and heads up for rolling rocks. Heavy snag density and fire weakened green trees...know your work area. Identify and avoid, or eliminate, hazard trees. Aviation operations...clear areas near bucket work. Use spotters when backing vehicles, and exercise care when navigating mountain roads.		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

To: All Incident Personnel

As Incident Commander, I am committed to a policy of “zero tolerance” of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The Southern Area Red Team has a policy of “NO ALCOHOL” from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places “Safety First, every time on every Incident.” We expect nothing less.

/s/Steve Parrish

Incident Commander

SA Red Team

INCIDENT Weather Forecast

FORECAST NO: 8

PREDICTION FOR: Day Shift

SHIFT DATE: November 24, 2023

FORECAST ISSUED: November 23, 2023 @1600

NAME OF FIRE: Matts Creek

UNIT: VA-VIC

SIGNED: Phil Manuel

Incident Meteorologist

WEATHER DISCUSSION: A weak upper level disturbance will pass south of the incident area resulting in variable cloud cover today and tonight. Seasonal temperatures are forecast with highs in the 50s and lows in the 30s. Humidity minimums near 50% can be expected this afternoon, with good recovery tonight. Winds are expected to be light and variable this morning, then from the northeast this afternoon and tonight.

WEATHER FORECAST TODAY (Friday):

WEATHER: Partly Cloudy.

TEMPERATURES: Highs 52 to 57.

HUMIDITY: 45 to 55%.

20 FT WINDS: Northeast 4 to 7 mph after 1000.

HAINES INDEX: 3

STABILITY/INVERSION: Shallow surface inversion should break by 1000 hours.

OUTLOOK FOR TONIGHT: Mostly cloudy. Lows in the 30s. Wind northeast 5 to 10 mph. Humidity recovery to near 80%.

OUTLOOK FOR SATURDAY: Morning clouds, afternoon sunshine. Much cooler. Highs in the 40s. Winds start out of the east-northeast, shifting out of the east-southeast by the afternoon, speeds under 10 mph.

EXTRA INFORMATION:

Sunrise: 0707

Sunset: 1702

If you have any weather questions, needs, or concerns, please email, text or call.
phillip.manuel@noaa.gov / 540-239-8961

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 08	TYPE OF FIRE: Wildland, Type 1
FIRE NAME: Matts Creek	OPERATIONAL PERIOD: Day Shift
DATE ISSUED: 11/22/23 TIME ISSUED: 1700	SHIFT DATE: Thurs-Wed 11/23 thru 11/29
UNIT: George Washington/Jefferson NF	SIGNED: Greg Titus, FBAN

WEATHER SUMMARY:

See weather forecast in today's IAP

FUELS:

<p>A Fuels and Fire Behavior Advisory was issued for Southern Appalachian Mountains and Piedmont on November 13th. Use link below.</p>	<p>Pocket Cards GWJ NFs</p>	<p>The surface fuel is mostly hardwood leaf litter that has fallen over the past few weeks. The previous rain event has moistened the leaf litter. Little to no fuels will be available to burn for the next few days.</p> <p style="text-align: center;">Glenped (441631) RAWs 11/22/23</p> <p style="text-align: center;">ERC Y – 12 1000 hr – 18%</p> <p>ERC values are not forecasted to go above 25 in the next week.</p>
--	-----------------------------	--

FIRE BEHAVIOR:

The fire area received between 3½ and 5 inches of rain during a long duration event. Due to the fire burning out to control lines, the heavy long duration rainfall, and mop-up of any remaining heat near the control lines further fire spread is not expected. Smoldering may occur under very sheltered locations, such as the underside of large logs and hollow trees. A few heavy fuels may smolder on the interior of the fire.

Fire Behavior of any New Starts, MAXIMUM values during the next 7 days.

Vegetation	Fuel Models	Max Rate of Spread		Flame Length	
		Head	Flank	Head	Flank
Hardwood Timber Litter	9	10 ch/hr	1 ch/hr	3 ft	1 ft
Timber Shrub-Understory	TU3	35 ch/hr	3 ch/hr	8 ft	2 ft

Maximum Probability of Ignition in next 7 days = 31%

No long-range spotting in the next 7 days

In **15 minutes** a new spot fire or ignition can reach **3 acres**

Specific Areas of Concern: No areas of special concern within the Matts Creek Fire perimeter. New starts could still occur. Resistance to control will be minimal.

AIR OPERATIONS: No significant issues with air operations in the next 7 days.

SAFETY:

If you are interested in more information about fire behavior use the QR code to the right. It will take you to a poster covering fuels, sun/heat/humidity&rain, cloud & plume indicators, winds, topography, and fire behavior descriptions.

IWI IC Responsibilities – Division Group Supervisor or Point of Contact

- Take charge of the scene – inform the Division Supervisor and Matts Creek ICP that you are the IWI IC and establish radio communications (frequencies, channels, or phone (252-723-3394). Identify the emergency name – Division A medical, etc.
- Assign or begin patient assessment (Medical Incident Report - MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to ICP.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through ICP as early as possible.
- Notify ICP as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. Unit Log, ICS 214, may be used for initial documentation, but a narrative will be required.
- As appropriate, conduct an After-Action Review to determine successes, areas to improve and lessons learned.

MAKE HASTE SLOWLY

INCIDENT: Matts Creek

DATE: 11/24/2023

TIME: 0700

Major Hazards and Risks:

**WEATHER
DRIVING
COMMUNICATIONS
STEEP TERRAIN & ROLLING DEBRIS**

WEATHER – Keep informed on fire weather conditions and forecasts. Conditions are going to start drying and Temperatures are going to get down low (below freezing soon) plan to Winterize pump and equipment. Carry extra clothing to prevent hypothermia.

DRIVING – Lights on while vehicle is in use. Use a spotter when backing. Keep Windshields clean. Expect increase in traffic with the holiday weekend, be patient, courteous, and drive defensively.

COMMUNICATIONS – Maintain communication with all resources, and suppression organizations. Ensure all know frequencies and protocols for contacting all resources are known by all. Utilize the ICS 205. Utilize human repeater when working in dead spots.

STEEP TERRAIN & ROLLING DEBRIS – Maintain spacing when working and walking. Don't work above other personnel. Post a lookout for rolling rocks and debris. Evaluate the necessity to send personnel in areas with limited access, if it is a necessity ensure proper mitigations are in place to get them out.

Hazard Tree Safety

Environmental conditions that increase snag hazards:

- Strong winds
- Night operations
- Steep slopes
- Diseased or bug-kill areas

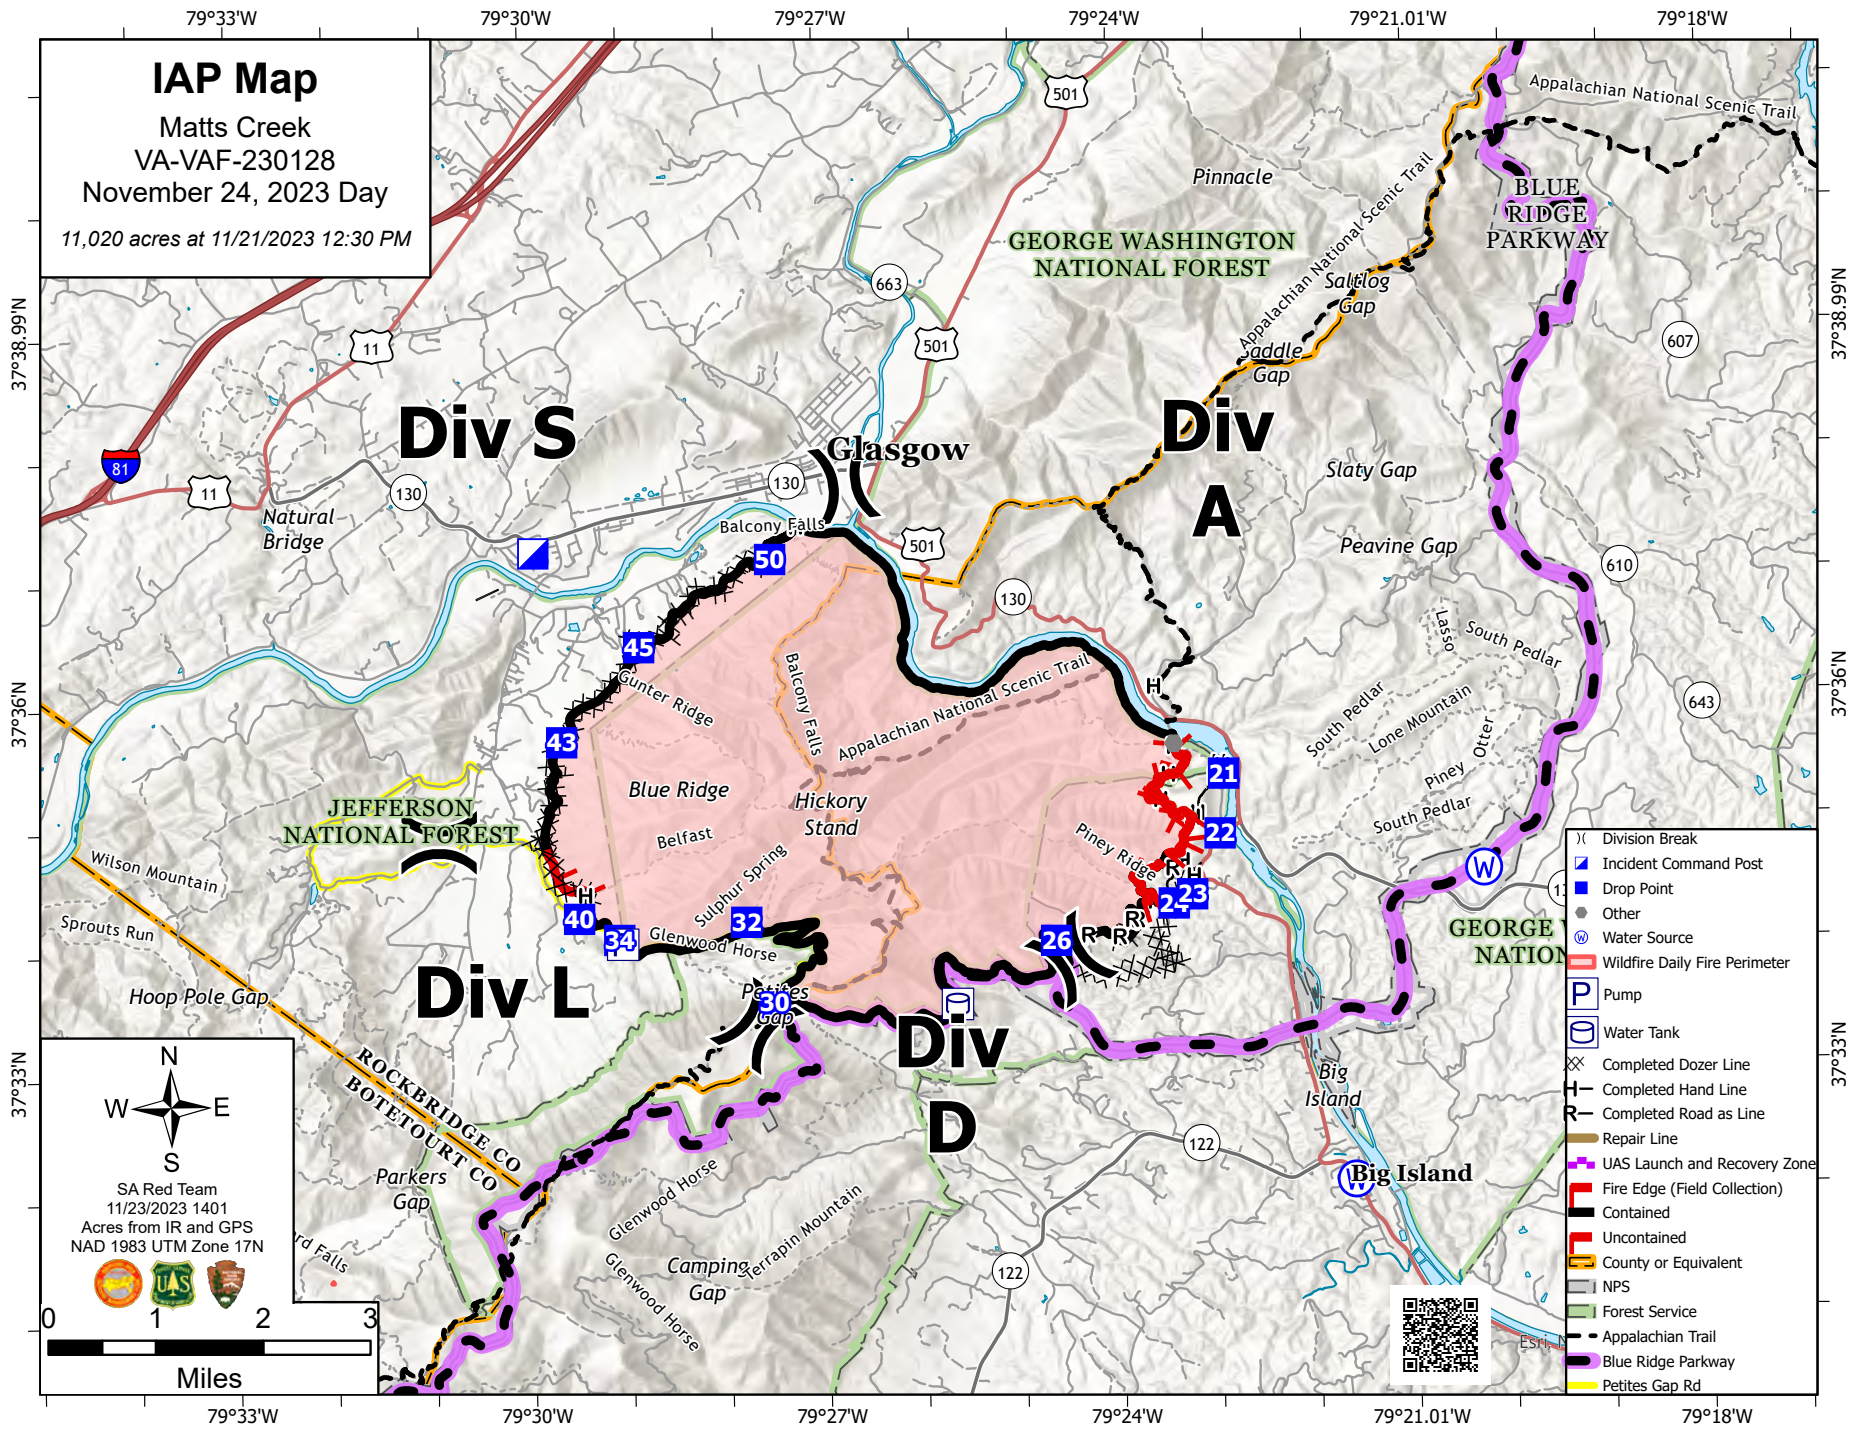

Hazard tree indicators:

- Trees have been burning for an extended period
- High risk tree species (rot and shallow root system)
- Numerous down trees
- Dead or broken tops and limbs overhead
- Accumulation of down limbs
- Absence of needles, bark or limbs
- Leaning or hung-up trees

Incident Safety Officer: Tommy Hawkins, Brad Lidell, Ed Bratcher, Robert Bertolina

RESOURCE ADVISOR MESSAGE – MATTS CREEK FIRE

Matts Creek Fire is burning in and near several areas of special value on the Glenwood-Pedlar Ranger Districts of the George Washington & Jefferson National Forests (USFS) and the Blue Ridge Parkway (NPS). These include the James River Face Wilderness, the Appalachian National Scenic Trail (A.T.), a Potential Wilderness Area, and the nearby Blue Ridge Parkway itself.

Utilizing Minimum Impact Strategies and Tactics (*MIST*, see *IRPG* pages 96-97) in all phases of fire operations including suppression repair is the best way to protect these special areas from the effects of both the fire and the fire suppression actions.

The Forest Supervisor's authorization for use of chain saws, leaf blowers, pumps, and aircraft in James River Face Wilderness and the Potential Wilderness Area remains in effect.

On NPS Blue Ridge Parkway lands, no loading/unloading of bulldozers on pavement and no dozer line construction on NPS lands is allowed. Trimming dozers across NPS lands with blades/plows up is allowed. The entire Blue Ridge Parkway itself is a protected cultural resource, including the roadway, guard walls, guard rails, culverts, overlooks, and pullouts.

Fireline supervisors have been briefed and have paper copies of the draft Suppression Repair Plan. The plan includes handline repair, trails-as-handline repair, dozerline repair, and horse-trail-as-dozerline repair. Resource Advisors are available by radio or cellphone.

Resource Advisors: Pete Irvine c: 304-676-6000, or radio.
 Plinio Beres c: 540-795-9510, or radio.

TRAINING MESSAGE

TOPIC: WRITING EFFECTIVE PERFORMANCE EVALUATIONS

- Provide **CONSTRUCTIVE FEEDBACK** for trainees and make your words valuable for the person or people responsible for reviewing the evaluation.
- Describe what the trainee did on the assignment to justify their rating. **PAINT THE PICTURE** to the reviewing officials on the complexity of the assignment!
- Be **HONEST** enough to let the trainee know what their strengths and weaknesses are, how they performed and if they met, did not meet, or exceeded your expectations.
- **DOCUMENT** what skills or tasks the trainee should work on next if recommending continuing assignments.
- If recommending certification, **BE SPECIFIC** in the performance evaluation that you are recommending them for certification.
- **TRAINEES**-Make sure a copy of both the completed Performance Evaluation AND PTB Evaluator's are sent to the Training Specialist.

If you need a blank copy of the Performance Evaluation or Evaluators page for the PTB, please contact the Training Specialist.

DEMOBILIZATION CHECK-OUT PROCESS

This incident is using a virtual checkout process for demobilization. **Please do not leave the incident until the follow steps have been completed!**

1. **48 hours prior** to demobilization date, please ensure that:

Your incident supervisor has submitted a [DemobRequest Form](#).

- in coordination with the Demob unit.
- If you need a flight arranged for you, please submit a [Flight](#) Request Form.

Demob Request Form

2. **On your demob date**, please check out with the following units.

- Supply Unit – Return gear and supplies.
- Ground Support/Weed Wash – Return pool NERV rentals, receive inspections, etc.
- Communications Unit – Return Radios and other communications equipment.
- Time/Finance – Ensure that all CTRs and/or shift tickets have been submitted and **you have received your final, signed OF-288 Time Report or OF-286 invoice.**

Flight Request Form

3. **Once you have completed the above steps**, please fill out the [Demob Check Form](#) and contact the Demob Unit Leader to confirm your release from the incident. **PLEASE DO NOT FILL OUT THE DEMOB RELEASE FORM UNTIL ALL PRIOR STEPS BEEN COMPLETED!**

Demob Unit Leader: (936) 488-1231, 2023.mattscreek.demob@firenet.gov

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE **"MEDICAL EMERGENCY"** TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Matts Creek Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Tiger Island Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Crew Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: (IRPG PAGE 106)	Age:	Weight:	Chief Complaint:			
Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP:	HR:	Respirations:		
Treatment:						

4. TRANSPORT PLAN:

Evacuation Location (*drop point, intersection, helispot, Lat. / Long, hazards*) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***
