

Cerro Pelado

NM-SNF-000049, P3PK47 (0310)

**Operational Period:
Sunday, April 24, 2022
0700 – April 25, 2022 0700**

**SA Red Team
Incident Commander
Steve Parrish**

1 INCIDENT NAME Cerro Pelado Fire	2. OPERATIONAL PERIOD: DAY / NIGHT 04/24/2022 Sunday 0700- 04/25/2022 Monday 0700	2. DATE PREPARED 04/23/2022	3. TIME PREPARED 1800									
3. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) Management Objectives 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements. 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics. 3) Maintain and strengthen relationships with the Santa Fe National Forest, private landowners, the public, cooperators and partners by providing timely and accurate information. 4) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement. 5) Protect impact to cultural resources through consultation with local forest specialists. Control Objectives 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success. 2) Keep fire out of Jemez Canyon 3) Keep fire East of Forest Road (FR) 10; SouthEast of Community SLP; South of State Route (SR) 4; East of FRs 282 & 280; and North of FR 270 4) Minimize retardant impacts to Jemez Natural Recreation Area 5) Protect values at risk in the Valles Caldera National Preserve including watersheds, visitor and administrative infrastructure, historic structures, cultural resources, and important wildlife habitats. 6) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.												
4. Operational Period Command Emphasis: <p style="text-align: center;">*** L C E S ***</p>												
5. General Situational Awareness: <p style="text-align: center;">**Continued low RHs** **No predicted precip for several days**</p> <p><u>WEATHER DISCUSSION:</u> Unusually early start to fire season. Critical to extreme fire weather for the next several days. Entire area is experiencing extended drought. Please see daily weather forecast for detailed report.</p>												
7. GENERAL MESSAGE See the attached Safety Message for more information.

To: All Incident Personnel, Cerro Pelado Fire

As Southern Area National Type I Incident Commander, I am committed to a policy of “zero tolerance” of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The National Team from the Southern Region has a policy of “NO ALCOHOL” from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places “Safety First, every time on every Incident.” We expect nothing less.

/s/Steve Parrish

Incident Commander

SAIMT 1

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 01	TYPE OF FIRE: Wildland, Type 1
FIRE NAME: Cerro Pelado	OPERATIONAL PERIOD: Day Shift
DATE ISSUED: 4/23/22 TIME ISSUED: 1800	SHIFT DATE: Sunday, April 24, 2022
UNIT: Santa Fe NF	SIGNED: Greg Titus, FBAN 

WEATHER SUMMARY:

See weather forecast in today's IAP
Local Thresholds – Watch Outs
Min RH < 15%, Winds > 30 mph

FIRE BEHAVIOR:

GENERAL:

Although weather conditions have moderated expect active fire behavior today.

Current Fire Environment Conditions:

Fine Dead Fuel Moisture = 2%, 1,000 Hour Fuel Moisture = 11%, Live Shrub Moisture = 82%
ERC's remain around the 90th percentile @ Jemez RAWs, but at or near maximum value for this date.

Fire Behavior based on maximum values for the fuel models shown, exposed fuels on steep slope.

Fuel Model	Rate of Spread	Flame Length
Grass/Shrub	6-14 chains/hour	4-6 feet
Timber	9-20 chains/hour	8-11 feet

Spotting from ridge top torching trees up to **0.4 mile during wind gusts**. Probability of Ignition = **91%**
In **one hour** new spot fires or ignitions can reach **10 acres**.

Specific Areas of Concern:

East Side – Today's winds will push this side of the fire. The fire will move into the fire scar from the 2011 Las Conchas fire. This area has a higher shrub component and large amount of heavy dead fuels on the forest floor.

South Side – The fire will move into the 2017 Cajete fire scar. The change in fuels will alter fire behavior. Expect a slowing of the fire in this area with mostly flanking fire.

North Side – The fire will move into the 2014 Pinto fire scar. The change in fuels from the Pinto fire will alter fire behavior. Expect a slowing of the fire in this area with mostly flanking fire.

West Side – Expect low to moderate fire behavior with the fire backing down slope and an occasional upslope run.

AIR OPERATIONS: Clear sky. Potential areas of smoke from adjacent fires.

SAFETY:

Even though fire behavior will not be as active today as the last two days there is still the potential for fast moving fire. Upslope runs in grassy areas have the potential for fast fire movement. Stay alert to your immediate surroundings.

Send any fire behavior observations or photos to: gregory_titus@fws.gov

HEALTH AND SAFETY MESSAGE

“We don’t plan on luck to be safe, we plan on sound risk management and good decisions.....the Red Team

INCIDENT: Cerro Pelado Fire	DATE: Sunday, April 24, 2022
Major Hazards & Risks: Dynamic Environment, Risk Management, Medical Emergency	
<p>Dynamic Environment - Historic wind events, low Rh and a lack of precipitation throughout the fall and winter months have produced conditions that can prove to be catastrophic on any given day. Fuels are primed and ready to burn across the landscape. Make it a safe day by giving conscious effort and thought to all of your actions before engaging.</p> <p>Risk Management- This is our primary means of maintaining safe wildland fire operations. Constantly <i>evaluate your actions</i> and do not hesitate to adjust as environmental and human factor conditions change. Review the Risk Management Process and look for opportunities that provide a high probability of success, while limiting risk and exposure to resources. Ensure L.C.E.S. is in place at all times.</p> <p>Medical Emergencies- Do you know what to do in case of a medical emergency? <i>Review the Medical Incident Report “9 Line”</i> at the end of your IRPG or the IAP. Your actions may be what saves a life!</p>	
<p style="text-align: center;">IF you SEE Something, SAY Something!!</p> <div style="text-align: center;">  </div>	<p style="text-align: center;">Remember</p> <ul style="list-style-type: none"> ✓ <u>S</u>TEP BACK ✓ <u>T</u>HINK ✓ <u>O</u>RGANIZE ✓ PROCEED <p style="text-align: center;"><i>L.C.E.S: Make sure they are in place</i></p>

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
