

# **Cerro Pelado**

NM-SNF-000049, P3PK47 (0310)

# Operational Period: Friday, April 29, 2022 0700 – April 30, 2022 0700

Cerro Pelado Communication Phone 561-527-0804

SA Red Team Incident Commander – Steve Parrish

## **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Operational Period: 0700-0700	
CERRO PELADO	Date/Time From:	Date/Time To:
	04/29/2022 0700 FRI	04/30/2022 0700 SAT

#### 3. Objective(s):

## Management Objectives

- 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements.
- 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics.
- 3) Maintain and strengthen relationships with the Santa Fe National Forest, private landowners, the public, cooperators and partners by providing timely and accurate information.
- 4) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement.
- 5) Protect impact to cultural resources through consultation with local forest specialists.

#### Control Objectives

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 2) Keep fire out of Jemez Canyon.
- 3) Keep fire East of Forest Road (FR) 10; Southeast of Community SLP; South of State Route (SR) 4; East of FR's 282 & 280; and North of FR 270.
- 4) Minimize retardant impacts to Jemez Natural Recreation Area.
- 5) Protect values at risk in the Valles Caldera National Preserve including watersheds, visitor and administrative infrastructure, historic structures, cultural resources, and important wildlife habitats.
- 6) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

## 4. Operational Period Command Emphasis:

Stop, Think, Discuss then Act, and ensure LCES is in place prior to engaging the fire or Initial Response fire.

The Cerro Pelado fire receives a strategic, risk-based response, commensurate with the threats and opportunities, and uses the full spectrum of management actions, that consider fire and fuel conditions, weather, values at risk, and resources available.

#### General Situational Awareness:

- Continued low RHs
- No predicted precipitation for several days

WEATHER DISCUSSION: Unusually early start to fire season. Critical to extreme fire weather for the next several days. Entire area is experiencing extended drought. Please see daily weather forecast for detailed report.

To: All Incident Personnel, Cerro Pelado Fire

As Southern Area National Type I Incident Commander, I am committed to a policy of "zero tolerance" of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The National Team from the Southern Region has a policy of "NO ALCOHOL" from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places "Safety First, every time on every Incident." We expect nothing less.

/s/Steve Parrish
Incident Commander
SAIMT 1

## **INCIDENT Weather Forecast**

Forecast No: 6 Name of Incident: Cerro Pelado Fire

Prediction For: Friday Unit: Santa Fe NF

Shift Date: April 29, 2022 Incident Meteorologist: Scott Stearns
Forecast Issued: April 28, 2022 at 1800 (208) 577-1617

<u>Discussion:</u> West winds stengthen and turn northwest as a dry cold front pushes through this morning. Existing dry air will combine with these winds, leading to CRITICAL conditions across the region. The strongest winds are likely to occur just after noon, bringing cooler (slightly below normal temperatures) into the area. Saturday, a brief ridge of high pressure allows temperatures to warm back to near normal in the wake of the cold front, but winds will relax.

Forecast for Today: \*\*\*RED FLAG WARNING 0900-2100 for strong winds and low RHs\*\*\*

**Sky/Weather:** Sunny with a cold front passage

## FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 07

FIRE NAME: Cerro Pelado

DATE ISSUED: 4/28/22 TIME ISSUED: 1800

TYPE OF FIRE: Wildland, Type 1

OPERATIONAL PERIOD: Day Shift

SHIFT DATE: Friday, April 29, 2022

UNIT: Santa Fe NF SIGNED: Mike Ward, FBAN (t)

WEATHER SUMMARY:

**Local Thresholds – Watch Outs** 

Min RH < 13%, Winds > 20 mph, Temp>80, Heavy Fuels <5%

and Haines Index of 5.

Today's Significant Fire Weather:
!!!! RED FLAG WARNINGS !!!
Strong gusting winds, Single Digit Humidity

SNF West Pocket Card

**Fire Environment & Danger Information** 

**SWCC Fire Danger Page** 

### FIRE BEHAVIOR:

#### **GENERAL:**

Very Active fire behavior is expected today on the East side of the fire. Strong winds and Haines index of 5 will create conditions for rapid fire growth and intensity, particularly where winds, slope and drainages align.

Single and group torching possible with long range spotting likely.

#### **Current Fire Environment Conditions:**

Fine Dead Fuel Moisture = 5%, 1,000 Hour Fuel Moisture = 11%, Live Shrub Moisture = 82% ERC's remain around the 90<sup>th</sup> percentile @ Jemez RAWS, but at or near maximum value for this date.

Fire Behavior based on MAXIMUM values for the fuel models shown, exposed fuels on steep slope.

Fuel Model	Rate of Spread	Flame Length
Slash w/ Grass/Shrub	14-30 chains/hour	11-19 feet
Timber	6-16 chains/hour	7-10 feet

Spotting from ridge top torching trees up to up to 1 mile during wind gusts. Probability of Ignition = 70 to 96%. In one hour new spot fires or ignitions can reach 8-19 acres.

## Specific Areas of Concern:

<u>Alpha and Zulu</u> – very low humidity's and high winds will increase fire intensity in already hot areas from recent burnouts. Wind alignment with San Juan drainage will increase fire intensity and spread potential along the 10 and 270 road.

<u>Romeo:</u> East side of the fire in the Las Conchas fire scar will continue to actively burn and move to the east. Continued burning of heavies and duff in the recently burned areas off of the 270 road system. Pockets of unburned fuels may exhibit very active burning with single and group torching possible. Long range spotting up to a mile is possible.

## **AIR OPERATIONS:**

Mostly sunny skies with some wind gusts, but a good day for aviation operations. Moderate smoke production at times may cause limited visibility.

#### SAFETY: Potential for erratic/ extreme fire behavior!

Escape routes and Safety zones need to be identified and communicated to all personnel.

Send any fire behavior observations or photos to: Michael.d.ward@usda.gov, 470-446-2247

#### HEALTH AND SAFETY MESSAGE

"We don't plan on luck to be safe, we plan on sound risk management and good decisions.....the Red Team

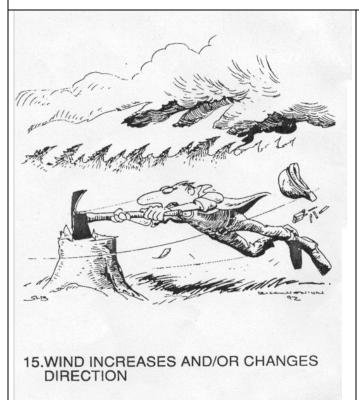

**INCIDENT:** Cerro Pelado Fire **DATE:** Friday, April 29, 2022

Major Hazards & Risks: Critical Fire Weather, Increased Local Traffic, Hazard Trees

Critical Fire Weather – The four critical weather elements are low RH, strong surface wind, unstable air, and drought. We will experience all four of these today with Red Flag Warnings. Keep informed on fire weather conditions and forecasts.

**Increased Local Traffic** – As we return to SET evacuation in the SLP and surrounding communities, some of the local residents will be returning home. This will increase our traffic in the fire area. Be patient, show respect and slow down when traveling through these communities. Highway 4 is reopened, which will increase traffic on that main transportation route. Use caution, Drive Defensively.

**Hazard Trees** – Both dead and live green trees are one of the most common risks encountered on the fireline. All firefighters should frequently survey their work area for potential hazard trees. High winds downed many green trees in the last wind event. Maintain situation awareness, look up and around, post a look out in potential danger.

#### STANDARD FIREFIGHTING ORDERS

- Keep informed on fire weather conditions and forecasts.
- Know what your fire is doing at all times.
- Base all actions on current and expected behavior of the
- Identify escape routes and safety zones, and make them known.
- Post lookouts when there is possible danger. Be alert. Keep calm. Think clearly. Act decisively.
- Maintain prompt communications with your forces, your supervisor, and adjoining forces.
- Give clear instructions and be sure they are understood.
- Maintain control of your forces at all times.

#### 10. Fight fire aggressively, having provided for safety first. WATCH OUT SITUATIONS

- Fire not scouted and sized up.
- In country not seen in daylight.
- Safety zones and escape routes not identified.
- Unfamiliar with weather and local factors influencing fire behavior.
- Uninformed on strategy, tactics, and hazards.
- Instructions and assignments not clear.
  No communication link with crewmembers or supervisor.
- Constructing line without safe anchor point. Building fireline downhill with fire below.
- 10. Attempting frontal assault on fire.
- Unburned fuel between you and fire.
- Cannot see main fire; not in contact with someone who can.
- On a hillside where rolling material can ignite fuel
- Weather becoming hotter and drier.
- Wind increases and/or changes direction.
- Getting frequent spot fires across line.
- Terrain and fuels make escape to safety zones difficult.
- Taking a nap near fireline.

Red Team Safety Officers: Tony Rivers, Tommy Hawkins, Brad Lidell, Dave Stone

6. Control Operations/Work Assignment	nts:	l	1			1			1

Task: Hold and improve direct firelines. Identify road system for potential containment lines. Improve exiting roads and construct dozer or hand lines as containment lines. Use aviation resources to monitor fire activity in Los Conchas fire footprint.

Purpose: Keep fire out of private inholdings while lessening fire movement to the South and Southeast

End State: Lessening the foot print of the Cerro Pelado fire while minimizing the impact to private lands.

#### 7. Special Instructions:

We are looking for pictures of the Fire especially those of firefighters and equipment in action, structure protection and scenic shots of the fire. Please mail to 2022.CerroPelado@firenet.gov

USFS Chief's 2022 Wildfire Letter of Intent

## Cerro Pelado Fire Human Resource Message April 29, 2022

### **What Makes Communication Difficult?**

## **Words Mean Different Things to Different People**

Look up 500 different words in a dictionary and you will find over 2,500 meanings and/or definitions for those same words. To communicate effectively, both the speaker and the listener must have a mutual understanding of the words they use.

## The Presenting Problem May Not Be the Major Concern

People often are hesitant to talk about what is really bothering them. The "real issues" are what they tend to hide most carefully. Trying to solve minor problems while the real problems are not clearly understood does not work. Doing this is a major source of ineffectiveness.

## Filters Distort What People Hear and Say and Emotions Are Blinding

Our own expectations, experiences, values, biases, self-images, beliefs, ideas, worldview, etc. create a "zone of distortion"; the filter that distorts our interpretation of another person's message. People are often unaware of how their emotions affect communications with others and emotions can literally put some people out of control and prevent them from communicating effectively.

## Here's what to do to improve communication:

Stand in the other person's shoes. You have stood in the other person's shoes when you repeat their point of view back to their satisfaction.

Drop your point of view long enough to take another way of seeing things.

Remember the point of communication is not to win or be right, but to either bring people together or clarify their differences.

"I long to accomplish some great and noble task, but it is my chief duty to accomplish small tasks as if they are great and noble." -Helen Keller-

Janine Summy, Human Resource Specialist, 509-429-1206 HRSPSummy@gmail.com

# CERRO PELADO FIRE Finance Process

Please email all documents that pertain to your assignment to the Cerro Pelado inbox.

2022.cerropelado.finance@firenet.gov

Use the following format on the email subject line:

(Example: TIME/O-200/SBear/Safety)

## **Contact Finance Section directly at 720-527-2533**

## **Required Financial Documents:**

Agency Overhead	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews	Cooperators

# Training Specialist Cerro Pelado

# The Training Specialist is working remotely. Training Specialist contact information for the Cerro Pelado Fire is:

- Robert Rivelle
- Most important; If any Trainee or Trainer has any questions or concerns, call/text: 707.498.1761 **anytime**.
- Email: robert\_rivelle@nps.gov

## How to register as a Trainee:

- 1. Use the QR code below to register. If you're unable to register using the QR code, please call 707.498.1761 anytime.
- 2. Once registered, you will receive text and email updates.

## How to close-out your training assignment:

- Trainer: Complete and Evaluation Record in the back of the Position Task Book and make as many entries as possible within the individual tasks. Discuss this with your Trainee.
- 2. **Trainer**: Complete an individual performance rating (ICS 225) and go over the performance rating with your Trainee.
- 3. **Trainee:** Text a photo or email your individual performance rating (ICS 225) to the Training Specialist.
- 4. Trainee: Complete the Trainee exit questions at the QR code below.
- 5. **Trainee:** Once 1-4 are completed, the Trainee and the Training Specialist will have a brief conversation to discuss the Task Book and assignment with the Trainee.
- 6. Done, except for safe travels home!

## **Trainee Registration**

#### **Trainee Exit Questions**

## **Cerro Pelado Fire Demob Unit**

## **Demob Day Approaching?**

**DEMOB HOURS OF OPERATION: 0730 -2200** 

720-584-9090 or email:

## 2022.cerropelado.demob@firenet.gov

- 1. Ensure that your supervisor has released you from the incident at least 24 hours in advance.
  - 2. Contact FINANCE 24 hours prior to give them a heads-up you are departing:

Phone: 720-527-2533

- 3. Turn in any outstanding CTRs/Shift Tickets. Make sure they are SIGNED.
- 4. Confirm there is no missing financial documentation. (See Finance Page for full information)

## Need Air Travel to get Home?

## IF YOUR RETURN METHOD OF TRAVEL IS BY <u>AIR</u>, CONTACT DMOB AT LEAST 72-HOURS BEFORE DEMOB DAY

Email: Include Gender, Name EXACTLY as it appears on your drivers license, Date of Birth, Departure & Final Destination Airport, city for Rental Car Return, your email and phone number

to:2022.cerropelado.demob@firenet.gov

**AIR TRAVEL PHONE: 720-584-9090** 

## **Cerro Pelado Demob Instructions**

## **On your Demob Day**

## STEP 1

Ensure that your supervisor has released you from the incident at least 24 hours in advance.

## STEP 2

**SUPPLY** – Return gear and supplies.

□ If nothing to turn in, contact supply to clear you.

**GROUND SUPPORT** – Return pool NERV rentals, receive an inspection, etc.

☐ Be sure to get inspected.

**COMMUNICATIONS** – Return communications equipment

## STEP 3

**FINANCE** – To finalize your finance paperwork, do the following:

- □ Please call 720-527-2533 to initiate your final OF-288 or OF-286.
  - Virtual Demob, please email your final CTR/ST noting Final CTR/ST in the subject line of the email, please include your cell phone number. Cerro Pelado Finance email 2022.cerropelado.finance@firenet.gov
  - o In-Person Demob: If you are unable to do a virtual demob, please arrange for an in person demob at the ICP. *Please keep your hard copy CTRs/STs to be turned in in-person.*

You need your final, signed OF-288 Time Report or OF-286 Invoice BEFORE starting travel.

## STEP 4

<u>Contact DMOB at 720-584-9090</u> and DMOB will verify that you have completed check- out. Be prepared to talk about your actual departure date and time, your anticipated arrival date and time, and where you will be staying if travel includes overnight stops away from fire camp.

You must complete <u>all four steps</u> to be released in IROC.

## Logistics

## **Ordering Process**

Orders should be sent to the ORDM's by 1300 for Cache Orders. For all other orders please have orders to ORDM's by 0800 hours or 1500 hours. Orders should be routed as shown below:

ORDM: Chad\_wilberger@firenet.gov

Logistics Section Chief: Chris Revels 864-490-4192 Jane Artega 530-957-3558

Facilities Unit Contact: Base Camp: Jimmy Rickard 706-308-2015

ICP: Susanne Adams 715-783-0291

**Ground Support**: Mike Post 305-849-1322 or Jay Aron 401-316-8730

Supply Unit Tom Piper 727-514-5513

Medical Unit Fred Adler 479-238-6064 or Nick Arnett 408-888-1900

Security Manager: Karen Bradford 423-851-4206

Food Unit Clyde Leggins 828-334-2340

**Communications** Barry Stearns 954-553-6544

## **Fuel Truck Hours** 0630 to 0900 and 1800 to 2100

Fuel Tender will be located at the Banco Bonito Staging area on Friday morning and evening, as well as Saturday morning. Fueling will begin at base camp starting Saturday evening.

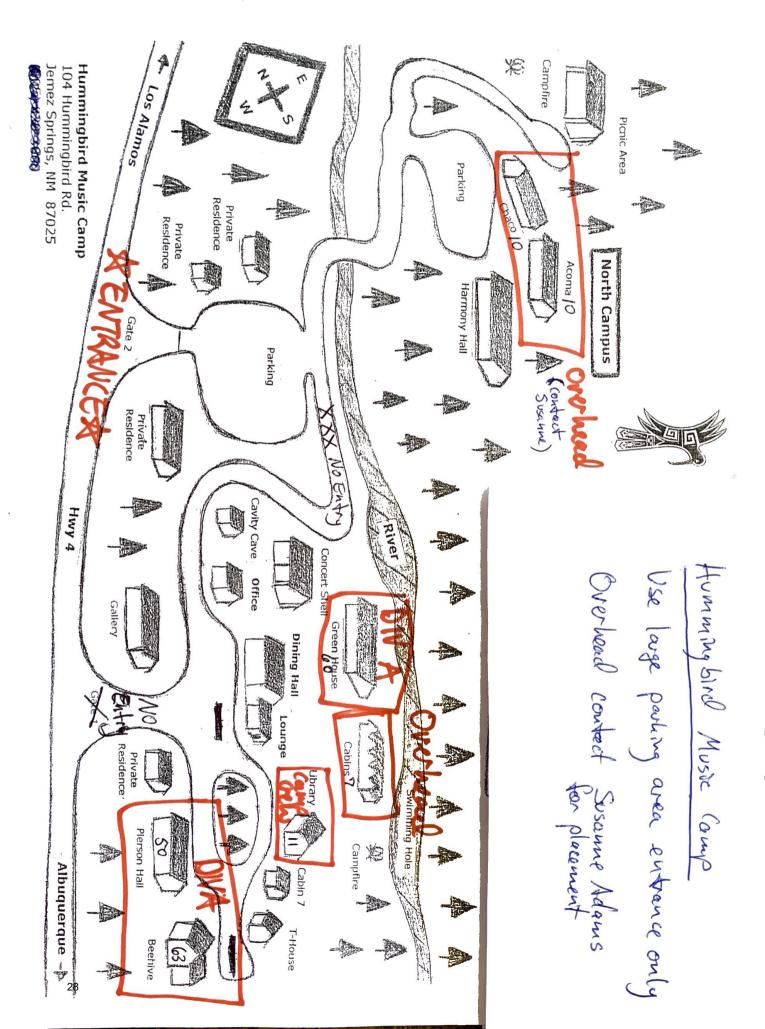

**Showers** are located at the Base Camp located on Forest Service Road 376 (mile marker 35).

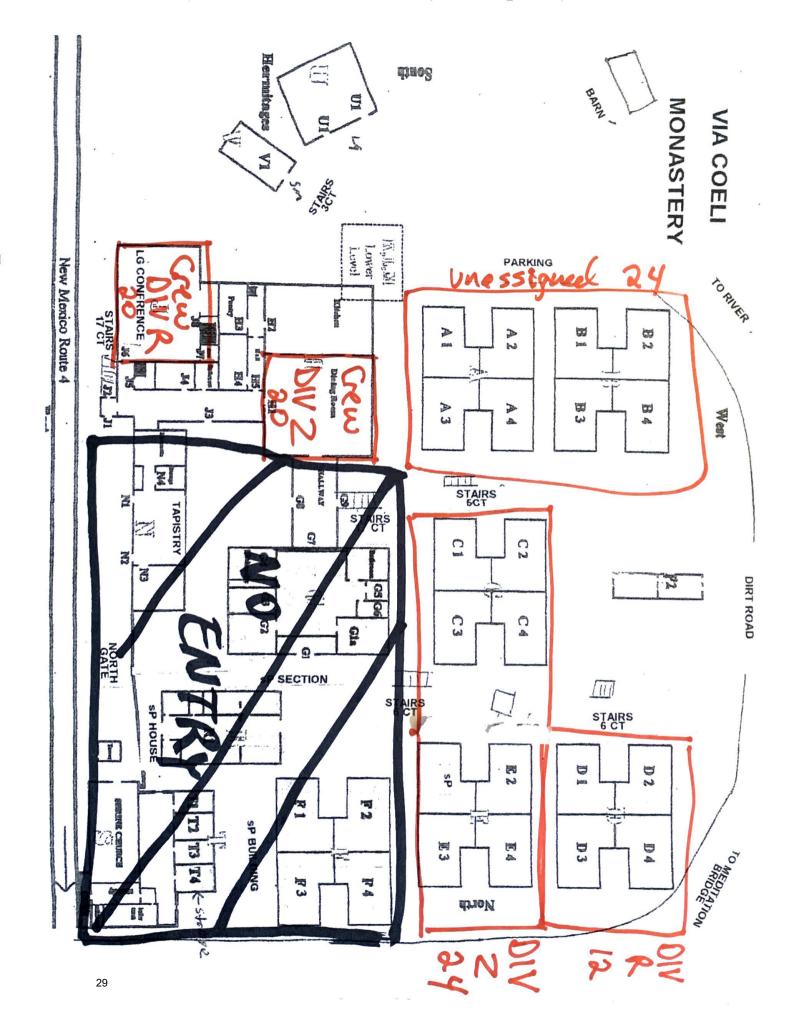

**Shower Hours**: 0600 to 1200 and 1400 to 2200

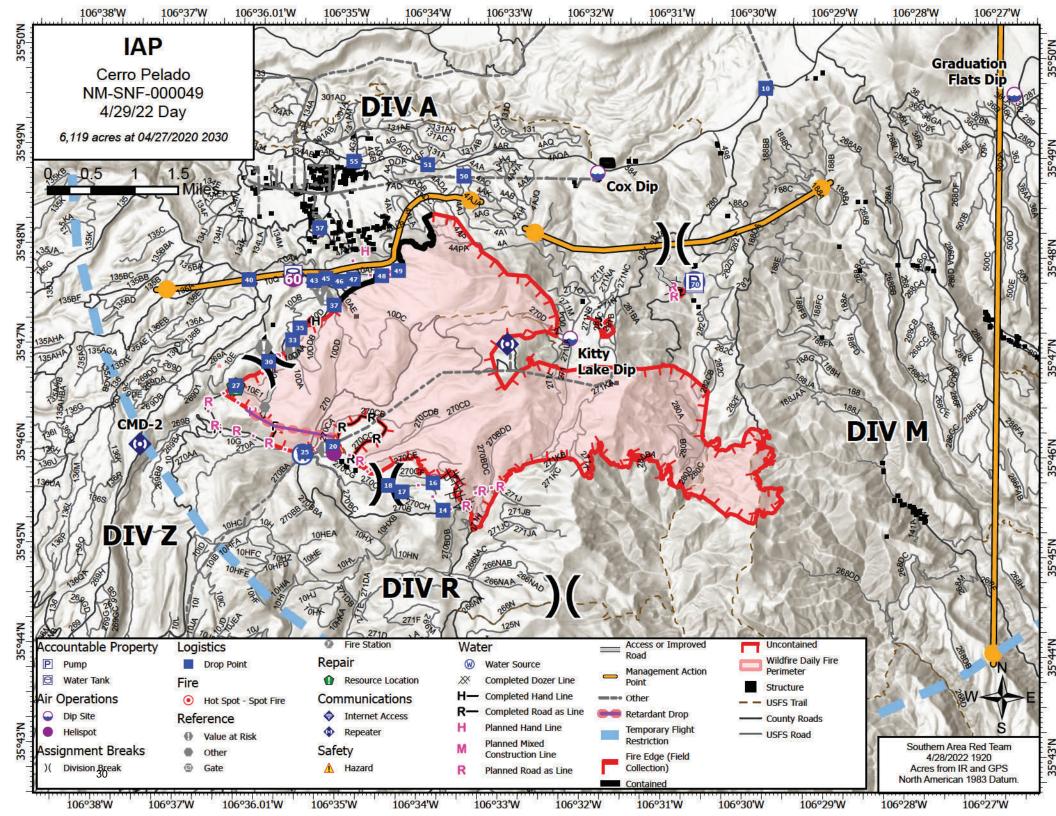

All resources will return to their designated room reservation area for Friday night. Resources should pack all belongings and check out of rooms on Saturday morning. All resources will report to Base Camp for camping accommodations after shift on Saturday.

Dinner will be served at the Hummingbird Music Camp on Thursday and Friday. Breakfast and Lunches will be available at the same location Friday and Saturday morning.

#### **IWI IC Responsibilities:**

- Take charge of the scene inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications(frequencies, channels). Identify the emergency name Division A medical, etc.
- Assign or begin patient assessment (Medical Incident Report MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

## **MEDICAL PLAN (ICS 206 WF)**

Controlled Unclassified Information//Basic

#### **Medical Incident Report**

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

- 1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
  - Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
- 2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical. IC is TFLD Jones. EMT Smith is providing medical care."

Meadow Medical, I	C is TFLD Jones. EM	Smith is	providing medical care."								
	rgency / Transport iority	□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE  EX: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  □ YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.  EX: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.  □ GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport  EX: Sprains, strains, minor heat-related illness.
