INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: 0700 - 0700		
CERRO PELADO	Date/Time From: 05/03/2022 0700	TUE	Date/Time To: 05/04/2022 0700
3. Objective(s):			
Management Objectives			
<p>1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements.</p> <p>2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics.</p> <p>3) Maintain and strengthen relationships with the Santa Fe National Forest, private landowners, the public, cooperators and partners by providing timely and accurate information.</p> <p>4) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement.</p> <p>5) Protect impact to cultural resources through consultation with local forest specialists.</p>			
Control Objectives			
<p>1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.</p> <p>2) Keep fire out of Jemez Canyon.</p> <p>3) Keep fire south of the community SLP and south of state route 4; keep fire west of forest road 289, and Tent Rock Ranch Rd.; keep fire north of Bear Spring Rd; keep fire east of forest road 266 and 271; keep fire north of forest road 270.</p> <p>4) Minimize retardant impacts to Jemez Natural Recreation Area.</p> <p>5) Protect values at risk in the Valles Caldera National Preserve including watersheds, visitor and administrative infrastructure, historic structures, cultural resources, and important wildlife habitats.</p> <p>6) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.</p>			
4. Operational Period Command Emphasis:			
Stop, Think, Discuss then Act, and ensure LCES is in place prior to engaging the fire or Initial Response fire.			
The Cerro Pelado fire receives a strategic, risk-based response, commensurate with the threats and opportunities, and uses the full spectrum of management actions, that consider fire and fuel conditions, weather, values at risk, and resources available.			
General Situational Awareness:			
<ul style="list-style-type: none"> • Continued low RHs • No predicted precipitation for several days 			
WEATHER DISCUSSION: Unusually early start to fire season. Critical to extreme fire weather for the next several days. Entire area is experiencing extended drought. Please see daily weather forecast for detailed report.

To: All Incident Personnel, Cerro Pelado Fire

As Southern Area National Type I Incident Commander, I am committed to a policy of “zero tolerance” of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The National Team from the Southern Region has a policy of “NO ALCOHOL” from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places “Safety First, every time on every Incident.” We expect nothing less.

/s/Steve Parrish

Incident Commander

INCIDENT Weather Forecast

Forecast No: 10
Prediction For: Tuesday
Shift Date: May 03, 2022
Forecast Issued: May 02, 2022 at 1800

Name of Incident: Cerro Pelado Fire
Unit: Santa Fe NF
Incident Meteorologist: Scott Stearns
 (208) 577-1617

Discussion: CRITICAL fire weather conditions are expected today as yet another cold front approaches this evening. This will lead to gusty southwest winds transitioning to the northwest after sunset. Overall, expect fairly similar conditions to what we experienced on Sunday. On Wednesday, winds will slow below critical thresholds, but remain stronger than yesterday.

Forecast for Today:
Sky/Weather:

*****RED FLAG WARNING 1200-2100 for gusty winds and low RHs*****

Sunny with increasing clouds in the evening

	Jemez Springs 8,000'		Cerro Pelado Pk 9,400'	
Max Temperature:	72		66	°F
Min RH:	10		12	%
Wind (20 FT):	Inversion breaking between 0900 and 1000. Expect the highest southwest winds to occur around 1600. Winds will turn westerly between 1800-2000 then northwesterly after sunset.			
... SW	18		SW	20 mph
... Gusts:	30		Gusts:	35 mph
Haines Index:	6		6	
LAL:	1		1	
Chance of Precipitation:	0		0	%
Tonight's Min Temperature:	39		32	°F
Tonight's Max RH:	40		35	%
Tonight's Wind (20 FT):	Weak inversion setting in around 2000. Gusty west-northwest winds up to 35 mph continue in southeast drainages of Divisions Foxtrot and Mike through 0100.			
... drainage	7		WNW	12 mph
... Gusts:	20		Gusts:	30 mph
Tonight's Haines Index:	6		6	
Tonight's LAL:	1		1	
Tonight's Chnc of Precip:	0		0	%

Forecast for Wednesday:

Sky/Weather: Mostly sunny

	Jemez Springs 8,000'		Cerro Pelado Pk 9,400'	
Max / Min Temperature:	62	36	56	29 °F
Min / Max RH:	13	45	16	50 %
Wind (20 FT):	Inversions breaking around 0900.			
... W	14		W	15 mph
... Gusts:	23		Gusts:	25 mph
Haines Index:	5		LAL:	1
			Precip Chance:	0

Extended Outlook:

A broad ridge of high pressure will move into the region Thursday or Friday leading to some of the warmest temperatures yet experienced on this fire. The forecast remains dry with potential strong winds on Saturday through Monday.

		Max T	Min T	Min RH	Max RH	Ridge Winds @ 1500	Weather
8,600'	Thu:	67	38	11	30	W @ 11 G18	
	Fri:	75	43	8	25	W @ 13 G20	
	Sat:	77	43	8	30	W @ 18 G33	near-critical conditions

If you have weather observations, please provide them to the IMET / FBAN.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 10	TYPE OF FIRE: Wildland, Type 1	
FIRE NAME: Cerro Pelado	OPERATIONAL PERIOD: Day Shift	
DATE ISSUED: 5/2/22 TIME ISSUED: 1800	SHIFT DATE: Tuesday, May 3, 2022	
UNIT: Santa Fe NF	SIGNED: Alison Coons, FBAN	
WEATHER SUMMARY:	Fire Environment & Danger Information	
<p style="text-align: center;">Local Thresholds – Watch Outs Min RH 8%, Winds 8 Gusts to 20 mph, Temp>70, Heavy Fuels <9%</p> <p style="text-align: center;"><u>Today's Significant Fire Weather:</u> Low Relative Humidity and Haines Index of 5.</p>	 SNF West Pocket Card	 SWCC Fire Danger Page

FIRE BEHAVIOR:

GENERAL:

Another day of predicted high winds and Haines index of 6 will create conditions that support active fire behavior particularly where winds, slope and fuel align. Potential for very active fire behavior is expected today on the east and north sides of the fire. Torching and spotting are likely to occur during the heat of the day.

Current Fire Environment Conditions:

Fine Dead Fuel Moisture = 4%, 1,000 Hour Fuel Moisture = 8-10%, Live Shrub Moisture = <82%
 ERC's remain between the 90th and 97th percentile value for this date.

Fire Behavior based on MAXIMUM values for the fuel models shown, exposed fuels on steep slope.

Fuel Model	Rate of Spread	Flame Length
Slash w/ Grass/Shrub	8-32 chains/hour	8-12 feet Head Fire, 1-4 feet Backing Fire
Timber	2-10 chains/hour	3-12 feet

There is potential for spotting distances of half of a miles
 Probability of Ignition = **75%**

Specific Areas of Concern:

Alpha and Zulu– South and southwest winds will allow for the most active part of the division to remain somewhat sheltered by terrain. Expect the fire to continue to back toward Highway 4. If winds begin to channel through the canyon above Kitty Lake Dip, an increase in down slope spread is likely.

Romeo: Fire is expected to continue moving to the south toward Oaks Mesa. If able to line up with the winds, the fire could make a push north over the various 266 and 271 roads.

Mike: The fire should hang up when it reaches the rock washes and sparse vegetation above Pueblo of Cochiti but continue to move sporadically through stringers of mixed conifer in the canyon bottoms

Fox Trot: Southwest and south winds will continue to support fire spread to the east and north. If the fire crosses Highway 4, expect high spread rates in the Valles Caldera due to heavy grass loading. If the fire crosses east of the caldera into mixed conifer and heavy loads of dead and down and gets established, ground resources should expect extreme fire behavior and long range spotting.

AIR OPERATIONS:

Aviation resources will be challenged with high winds. This is a day to NOT make plans that rely on air support to be successful.

SAFETY:

Pay close attention to any identified trigger points and reevaluate your situational awareness accordingly when reaching them.

Please send any fire behavior on site weather observations or photos to: alisoncc66@gmail.com 606-260-0526

HEALTH AND SAFETY MESSAGE

“We don’t plan on luck to be safe, we plan on sound risk management and good decisions.....the Red Team

INCIDENT: Cerro Pelado Fire	DATE: Tuesday, May 3 rd , 2022
Major Hazards & Risks: Fire Behavior, Steep Terrain, Base Camp Lodging	
<p>Fire Behavior – Today will be another Fire Weather Watch Day. Over the last week, we have seen what type of fire behavior the winds can produced when combined with low rh and wind gusts. Maintain your situational awareness and pay attention to any fire weather forecasts updates that are communicated throughout the day.</p> <p>Steep Terrain and Heavy Equipment: The fire is in very steep, rocky country with numerous canyons. Watch your footing and be heads up to equipment working above you. Dislodged rocks are a problem and will roll for a long way. Maintain situational awareness! Equipment operators’ vision may be limited and they may not see you. Maintain eye contact with operators.</p> <p>Base Camp Lodging – Camping areas at the new base camp are spread out along FS Road 376. Please avoid parking vehicles near and around areas where tents have been put up. Vehicles should be parked in designated parking areas away from sleeping locations.</p>	
<p style="text-align: center;">“Confused”</p> <div style="text-align: center;">  </div> <p style="text-align: center;">“ASK QUESTIONS FOR CLARIFICATION”</p>	<p style="text-align: center;">Fire Order of the Day</p> <p style="text-align: center;">Give clear instructions and ensure they are understood.</p> <p style="text-align: center;">Task - What is to be done.</p> <p style="text-align: center;">Purpose - Why it needs to be done</p> <p style="text-align: center;">End State - How it should look when Completed.</p>

Red Team Safety Officers: Tony Rivers, Tommy Hawkins, Brad Lidell, Dave Stone

USFS Chief's 2022 Wildfire Letter of Intent

**Cerro Pelado Fire
Human Resource Message
May 3, 2022**

Work and Fatigue in Wildland Firefighting affects your physical and emotional state!

Wildland Firefighting is arduous work, performed for long shifts in difficult environmental conditions. The work can be dangerous due to the fire and working conditions. Heat, smoke, rolling rocks, falling snags, and other hazards threaten the worker. Fatigue can impair performance and decision making, increasing the risk of injury. Prolonged exposure to fatigue, stress, smoke, and poor nutrition has the potential to increase the incidence of upper respiratory illness, but also mental lapses.

The stress response is necessary to prepare an athlete, firefighter or soldier for a maximal effort in a physical challenge, but it can be unhealthy if it occurs too often in the wrong setting.

Fatigue—A sense of tiredness, either mental or physical, brought on by stress (lack of sleep, physical work, nutritional inadequacies, or mental stresses). Fatigue following work or sleep deprivation is a normal state and can be reversed with adequate recovery or rest.

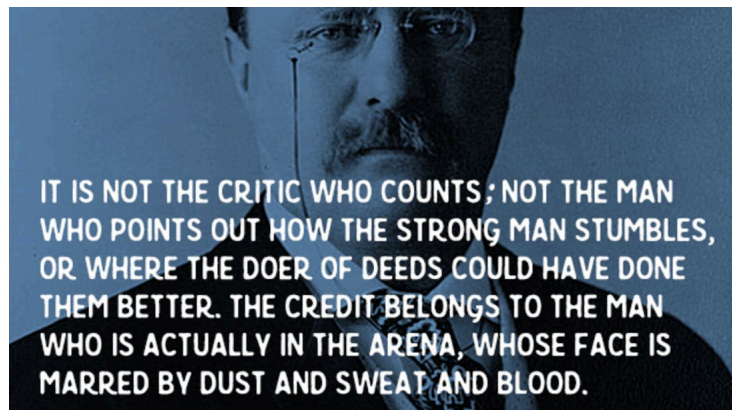

Accumulated (Chronic) Fatigue—Fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, resulting in decreased productivity, compromised immune function, and reduced alertness.

Fatigued workers perform poorly and behave carelessly, tolerate greater errors, and become inattentive. They display decreased motivation, increased irritability and depression, and low morale. Accumulated fatigue is more persistent, producing a wider array of effects on performance, health, and morale than ordinary fatigue. Accumulated fatigue requires longer recovery periods than ordinary fatigue.

Correct Nutrition, Hydration and Rest are good coping mechanisms for stress and fatigue. Make use of your down time and rest per the work/rest guidelines.

Your Mental Health Matters!

Janine Summy, Human Resource Specialist, 509-429-1206

Training Specialist Cerro Pelado

The Training Specialist is working remotely. Training Specialist contact information for the Cerro Pelado Fire is:

- Robert Rivelle
- Most important; If any Trainee or Trainer has any questions or concerns, call/text: 707.498.1761 **anytime**.
- Email: robert_rivelle@nps.gov

How to register as a Trainee:

1. Use the QR code below to register. If you're unable to register using the QR code, please call 707.498.1761 anytime.
2. Once registered, you will receive text and email updates.

How to close-out your training assignment:

1. **Trainer:** Complete and Evaluation Record in the back of the Position Task Book and make as many entries as possible within the individual tasks. Discuss this with your Trainee.
2. **Trainer:** Complete an individual performance rating (ICS 225) and go over the performance rating with your Trainee.
3. **Trainee:** Text a photo or email your individual performance rating (ICS 225) to the Training Specialist.
4. **Trainee:** Complete the Trainee exit questions at the QR code below.
5. **Trainee:** Once 1-4 are completed, the Trainee and the Training Specialist will have a brief conversation to discuss the Task Book and assignment with the Trainee.
6. **Done**, except for safe travels home!

Cerro Pelado Fire Demob Unit

Demob Day Approaching?

DEMOB HOURS OF OPERATION: 0730 -2200

720-584-9090 or email:

2022.cerropelado.demob@firenet.gov

1. Ensure that your supervisor has released you from the incident at least 24 hours in advance.
2. Contact FINANCE 24 hours prior to give them a heads-up you are departing: Phone: 720-527-2533
3. Turn in any outstanding CTRs/Shift Tickets. Make sure they are SIGNED.
4. Confirm there is no missing financial documentation. (See Finance Page for full information)

Need Air Travel to get Home?

**IF YOUR RETURN METHOD OF TRAVEL IS BY AIR,
CONTACT DMOB AT LEAST 72-HOURS BEFORE DEMOB DAY**

**Email: Include Gender, Name EXACTLY as it appears on your drivers license, Date of Birth, Departure & Final Destination Airport, city for Rental Car Return, your email and phone number
to: 2022.cerropelado.demob@firenet.gov**

AIR TRAVEL PHONE: 720-584-9090

Cerro Pelado Demob Instructions

On your Demob Day

STEP 1

Ensure that your supervisor has released you from the incident at least 24 hours in advance.

STEP 2

SUPPLY – Return gear and supplies.

- If nothing to turn in, contact supply to clear you.

GROUND SUPPORT – Return pool NERV rentals, receive an inspection, etc.

- Be sure to get inspected.

COMMUNICATIONS – Return communications equipment

STEP 3

FINANCE – To finalize your finance paperwork, do the following:

- **Please call 720-527-2533 to initiate your final OF-288 or OF-286.**
 - **Virtual Demob, please email your final CTR/ST noting Final CTR/ST in the subject line of the email, please include your cell phone number. Cerro Pelado Finance email 2022.cerropelado.finance@firenet.gov**
 - **In-Person Demob: If you are unable to do a virtual demob, please arrange for an in person demob at the ICP. *Please keep your hard copy CTRs/STs to be turned in in-person.***

You need your final, signed OF-288 Time Report or OF-286 Invoice BEFORE starting travel.

STEP 4

Contact DMOB at 720-584-9090 and DMOB will verify that you have completed check- out. Be prepared to talk about your actual departure date and time, your anticipated arrival date and time, and where you will be staying if travel includes overnight stops away from fire camp.

You must complete all four steps to be released in IROC.

Logistics

IMPORTANT All resources will need to clone radios for today's shift**

Communications will available after briefing at Base Camp and South FOB.

Ordering Process

Orders should be sent to the below ORDM's by 1300 for Cache Orders. For all other orders please have orders to ORDM's by 0800 hours or 1500 hours. Orders should be routed as shown below:

2022.cerrovelado.ordering@firenet.gov

Logistics: Sally Browning sbrowning50@gmail.com

Jane Artega 530-957-3558

Support Branch Director: Base Camp: Joe Walker 601-201-1776

Facilities Unit Contact: Base Camp: Jimmy Rickard 706-308-2015

ICP: Susanne Adams 715-783-0291

Ground Support: Jay Aron 720-584-8468

Supply Unit:: Tom Piper 727-514-5513

Medical Unit Fred Adler 479-238-6064 or Nick Arnett 408-888-1900

Security Manager: Karen Bradford 423-851-4206

Food Unit: Clyde Leggins 720-584-2569

Communications: Barry Stearns 954-553-6544

South FOB: Sean Brown 970-318-8594

Jeff Neuman 208-681-5701

Fuel Truck Hours 0630 to 0900 and 1800 to 2100

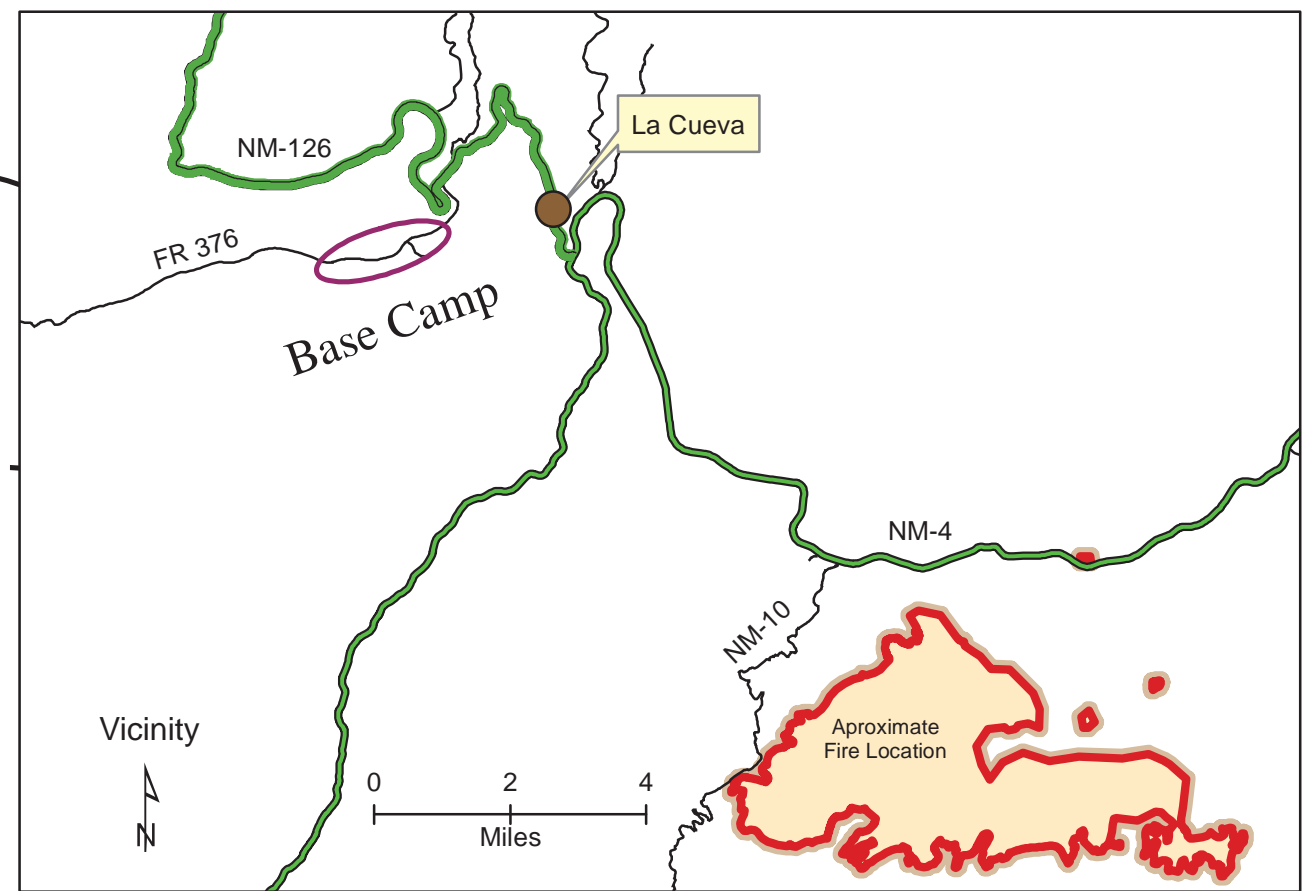

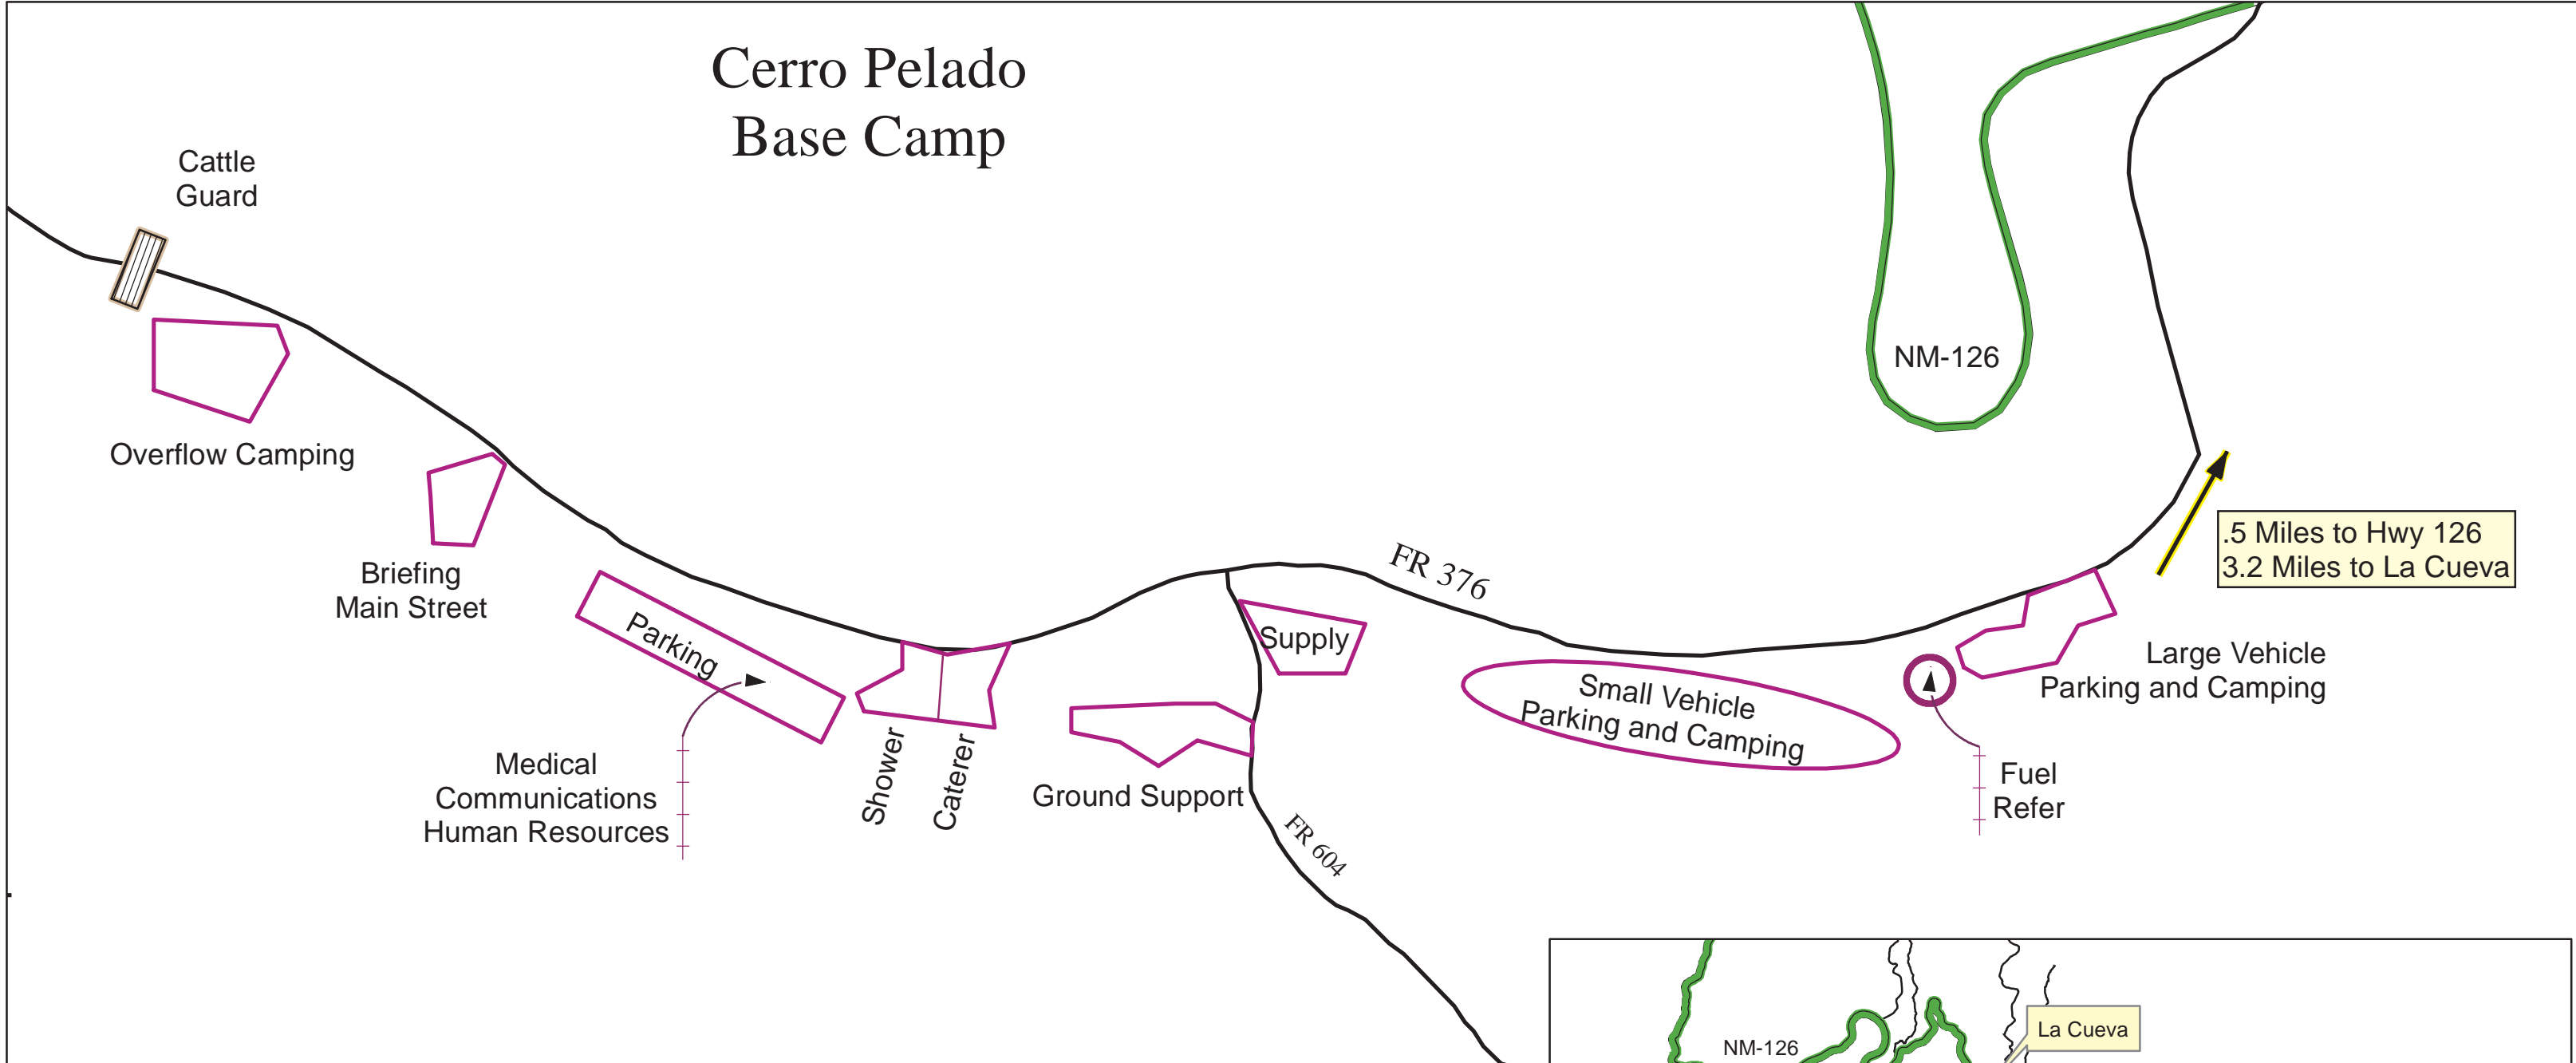

2 Fuel Tenders will be available, they will be located at the Banco Bonito Staging area and located at Base Camp near lunch refer.

Showers are located at the Base Camp located on Forest Service Road 376 (mile marker 35).

Shower Hours: 0600 to 1200 and 1400 to 2200

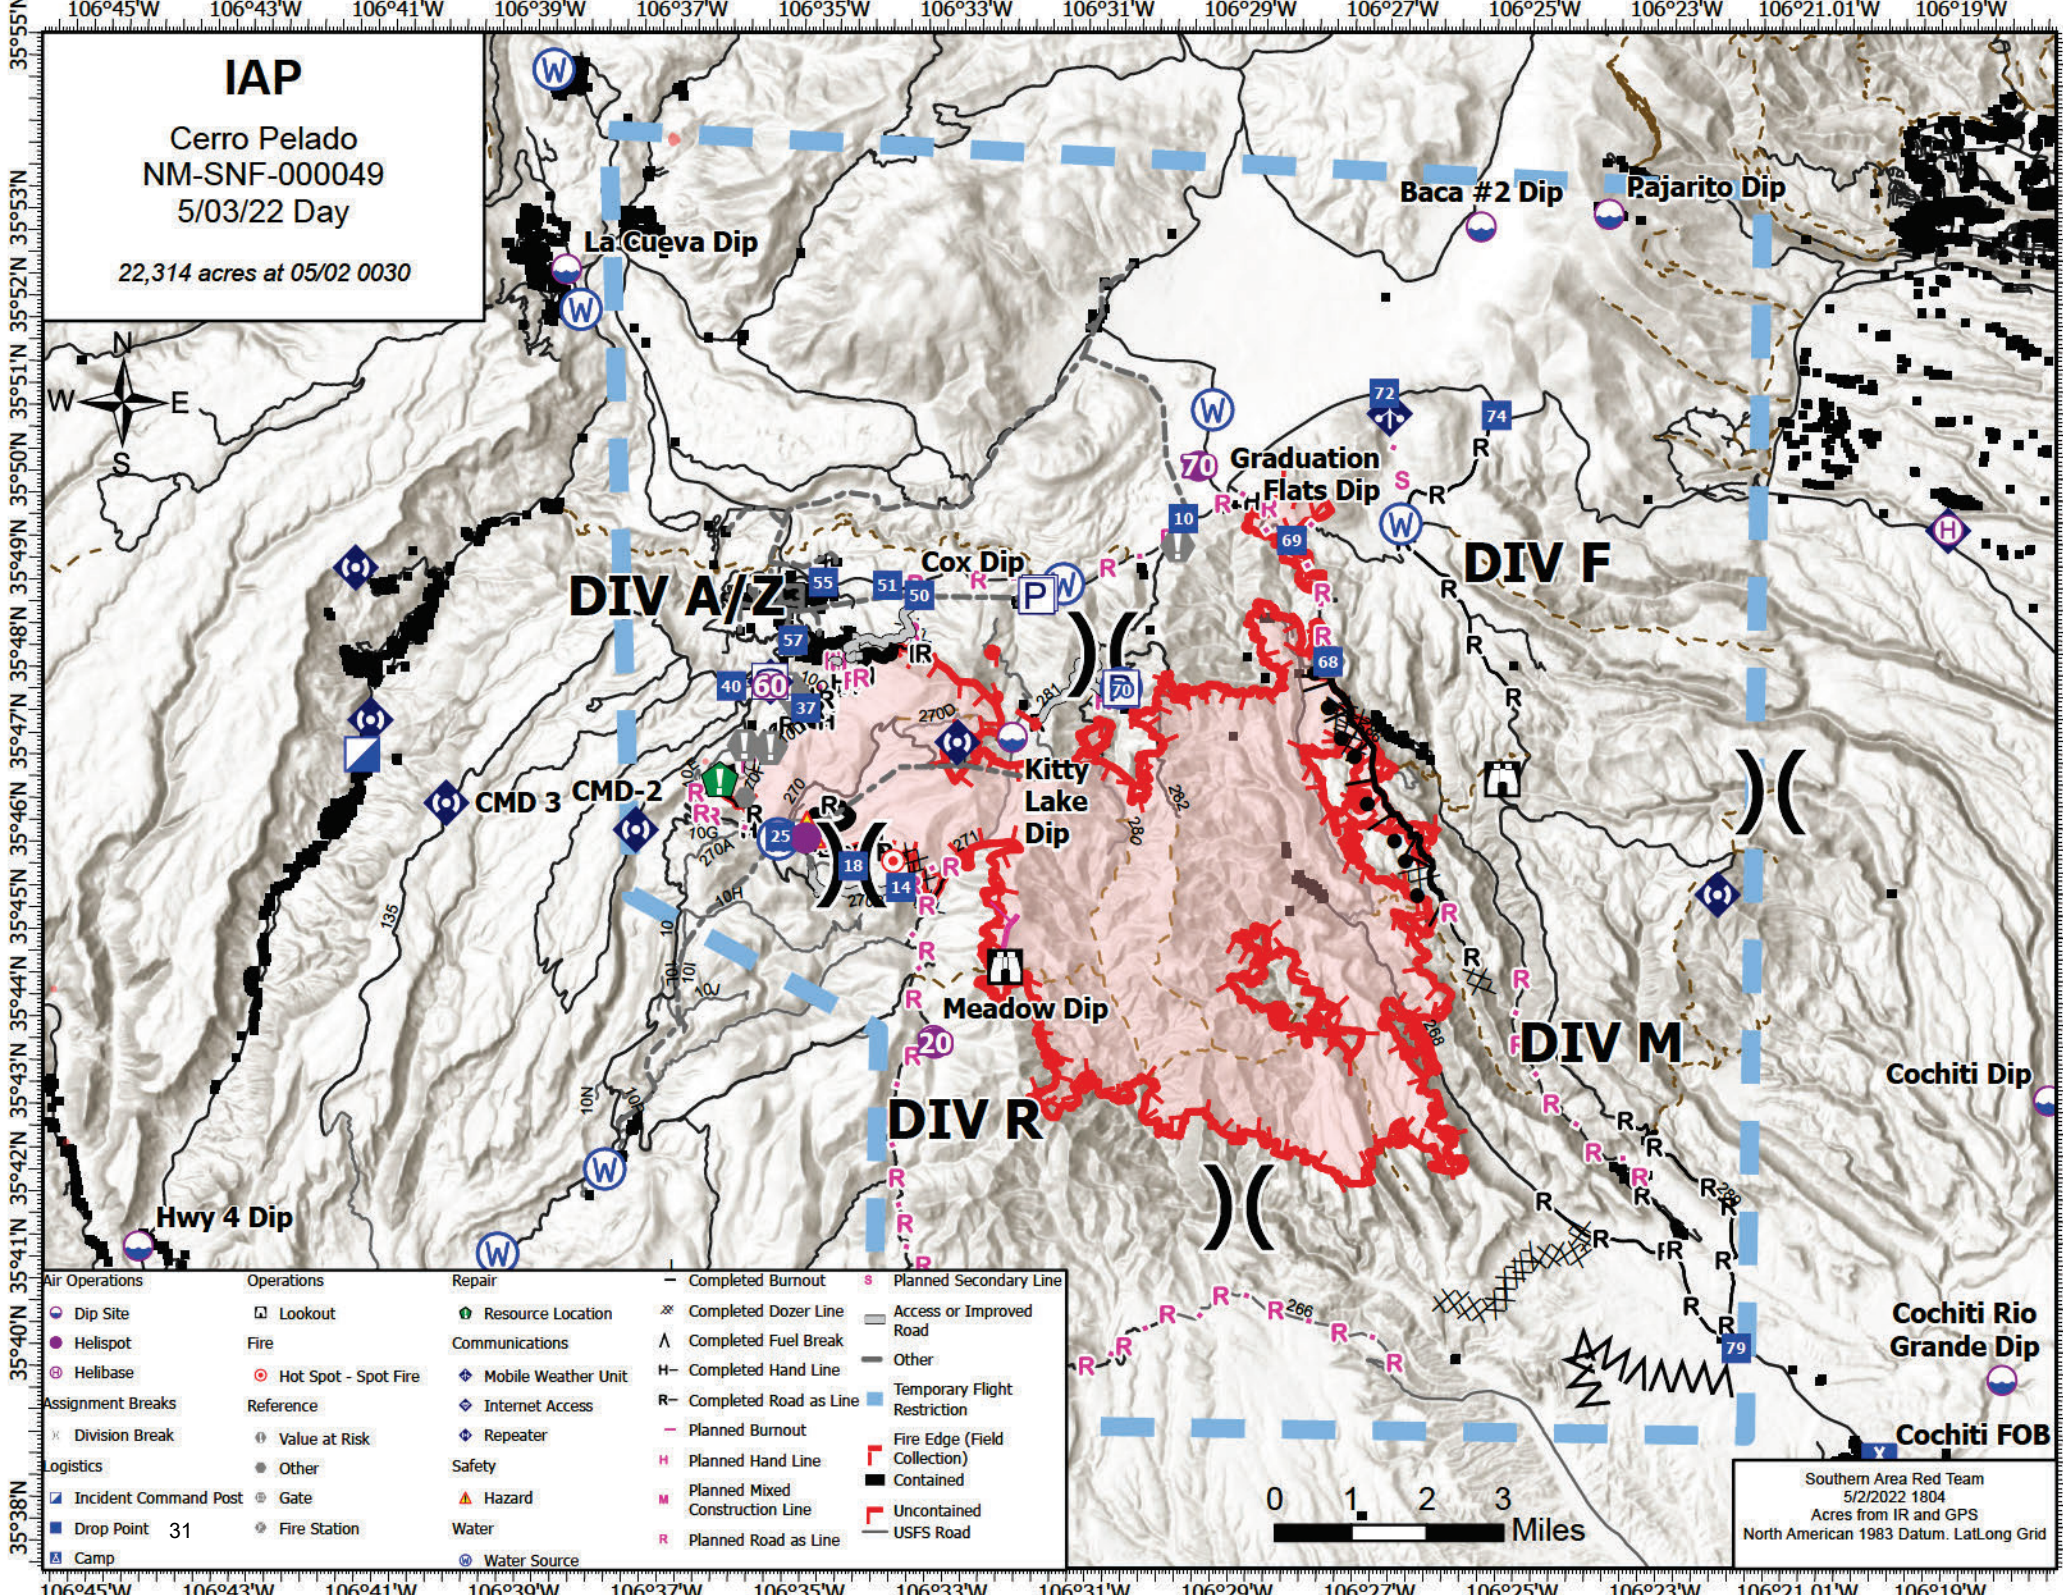

Night Shift: Breakfast will be served at the Hummingbird Music Camp @ 0900 and dinners at Base Camp @ 1700

IWI IC Responsibilities:

- Take charge of the scene – inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – Division A medical, etc.
- Assign or begin patient assessment (Medical Incident Report - MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After-Action Review to determine successes, areas to improve and lessons learned.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o – 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o – 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
