Pipeline	Helibase	Helibase	1	35° 17.980' N	111° 30.500' W
Pipeline	Repeater	Saddle	35	35° 26.300' N	111° 43.891' W
Pipeline	Repeater	O'Leary	35	35° 24.080' N	111° 31.578' W
Pipeline	Repeater	Elson	35	35° 14.450' N	111° 35.860' W

M.A.P. Stage	Activated	Deactivated	Cost	Condition
1	MAP1		\$105,000	Management Intent of MAP: Prepare for and/or implement protection of values at risk by setting priorities among protecting human communities and community infrastructure, other property and improvements, human health and safety, and the costs of protection commensurate to the value at risk.
	Inner Basin			Trigger Condition: If fire is anticipated to cross the MAP or has breached the MAP and expected weather forecast indicates continued fire progression is likely.
				Probability of Reaching Values: Fire has been holding on the MAP with controlled fireline. If there were to be spotting with no actions taken on it, there is potential for fire spread based on near term fire modeling.
2	MAP2		\$27,000	Management Intent of MAP: Prepare for and/or implement protection of values at risk by setting priorities among protecting human communities and community infrastructure, other property and improvements, human health and safety, and the costs of protection commensurate to the value at risk.
	Center Hill			Trigger Condition: If fire is anticipated to cross the MAP or has breached the MAP and expected weather forecast indicates continued fire progression is likely.
				Probability of Reaching Values: Fire has been holding on the MAP with controlled fireline. If there were to be spotting with no actions taken on it, there is slight potential for fire spread based on near term fire modeling.
