### DRAGON BRAVO AZ-GCP-000597

**PPS4CP (1532)** 

OPERATIONAL PERIOD 8/24/2025 0600-2100

### **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Operational Period: DAY	
DRAGON BRAVO	Date/Time From:	Date/Time To:
	08/24/2025 0600 SUN	08/24/2025 2100 SUN

### 3. Objective(s):

### Incident Objectives:

- 1. Ensure the safety and health of incident personnel and the public through clear intent and instruction, work prioritization, and the implementation of fundamental firefighting principles and risk management processes.
- 2. Protect values at risk including: private property, critical infrastructure, and natural and cultural resources, including Grand Canyon National Park (GCNP), Kaibab National Forest (KNF), Bureau of Land Management (BLM), AZ Dept of Forestry & Fire Management (AZDFFM) infrastructure, residential, recreation/commercial, utility and transportation infrastructure, and threatened and endangered species.
- 3. Employ full suppression response utilizing all strategies available to meet incident objectives.
- 4. Maintain and develop relationships with the public, adjacent agencies, stakeholders, cooperators, community leaders, and elected officials, while providing timely and current incident information.
- 5. Utilize Minimum Impact Suppression Tactics (MIST) on NPS lands and designated Kaibab National Forest Wilderness, coordinating activities impacting wilderness with the assigned Resource Advisor(s) when safe to do so.
- 6. Work in coordination with Resource Advisors to carry out the suppression repair plan on impacted landscapes, while documenting progress.

### **Incident Requirements:**

- Manage risk to incident personnel, accept only necessary risk when values threatened warrant action and the probability of achieving objectives are high.
- Maintain a harassment-free work environment and report any issues promptly.
- Ensure operational security to protect displaced individuals from unauthorized visual releases via media outlets.
- Use existing data and analytics to inform strategies, including Risk Management assistance Dashboard and Incident Strategic Alignment Process.
- Require archaeological surveys for mechanized line construction and coordinating wilderness intrusions with agency administrators.
- Work Collaboratively with Resource Advisors to mitigate impacts to natural and cultural resources.
- Follow sanitation procedures for equipment used in different watersheds to prevent invasive species spread.
- Utilize the Incident Business Management Guide for business decisions and cost-sharing discussions, maintain fiscal
  accountability while supporting the host unit and community, and promptly process and reconcile expenditures and
  documents accurately.
- Prepare a strategy with tactics conforming to GCNP, KNF, BLM and AZDFFM policies, and monitor and adjust its
  effectiveness accordingly.

### **Desired End State:**

The fire was suppressed and values at risk protected using the appropriate resources to implement tactics in locations with reasonable probabilities of success. Operations were conducted using risk-based decision-making processes to reduce the likelihood of accidents and injuries. All levels of incident leadership demonstrated a commitment to improve the wildland fire culture. Suppression damage was identified and repaired. Cooperator and public relationships are enhanced during incident management.

### Fire Weather Forecast

FORECAST NO: #41 INCIDENT: Dragon Bravo

PREDICTION FOR: Sunday UNIT: Grand Canyon National Park

**OPERATIONAL PERIOD:** 8/24/25 0600 - 8/24/25 2100

FORECAST ISSUED: 8/23/2025 at 1900 Incident Meteorologist(s): Mike Kistner (304) 575-7242

<u>Weather Discussion</u>: Monsoon moisture will impact the region again today with showers and thunderstorms expected. Main concerns will be localized heavy rainfall producing potential flash flooding and debris flows if thunderstorms stall over the burn scar area. A flash flood watch remains in effect for the entire area through 2000 Monday. Other potential hazards will be lightning and outflows, especially in stronger storms. Daytime high temperatures will be dependent on cloud cover and the afternoon showers and storms. Relative humidity will continue to trend upwards and there are currently no critical fire weather concerns.

\*\* Chance of thunderstorms implies heavy rain, chance of lightning and gusty, erratic winds to 30 mph\*\*

### Today:

Weather: Mostly cloudy with a 85% chance of showers and thunderstorms, mainly in the afternoon.

High Temperatures: Above 7000 ft: 72-80° | Below 7000 ft: 83-93°

Min RH: Above 7000 ft: 34-41% | Below 7000 ft: 27-34%

20-FOOT WINDS:

**Kaibab Plateau:** Upslope 6-8 mph gusting to 13-15 mph. **Grand Canyon:** Upslope 8-10 mph gusting 14-18 mph.

House Rock Valley: Upslope/upvalley 8-12 mph gusting 18-22 mph.

Chance of Wetting Rain (≥0.10"): 60% Mixing Height: 5,000 ft AGL Transport Wind: W 10 mph

### Tonight:

Weather: Mostly cloudy w/ a 60% chance of showers and thunderstorms in the evening decreasing overnight.

Low Temperatures: Above 7000 ft: 53-63° | Below 7000 ft: 63-73° | ICP: 45-50°

Max RH: Above 7000 ft: 70-80% | Below 7000 ft: 60-70%

20-FOOT WINDS:

Kaibab Plateau: Downslope 2-4 mph.

**Grand Canyon:** Downslope 4-6 mph gusting 8-10 mph. **House Rock Valley:** W 7-10 mph gusting 13-16 mph.

Chance of Wetting Rain (≥0.10"): 30%

### Monday:

Weather: Mostly cloudy with a 80% chance of showers and thunderstorms, mainly in the afternoon.

High Temperatures: Above 7000 ft: 70-80° | Below 7000 ft: 80-90°

Low Temperatures (Mon Night): Above 7000 ft: 48-58° | Below 7000 ft: 61-71° | ICP: 43-48°

Min RH: Above 7000 ft: 32-37% | Below 7000 ft: 28-34%

Max RH (Mon Night): Above 7000 ft: 70-80% | Below 7000 ft: 65-75%

20-FOOT WINDS:

**Kaibab Plateau:** Upslope 5-7 mph gusting to 13-15 mph. **Grand Canyon:** Upslope 7-9 mph gusting 15-20 mph.

House Rock Valley: Upslope/upvalley 8-11 mph gusting 17-21 mph.

Chance of Wetting Rain (≥0.10"): 40% Mixing Height: 5,500 ft AGL Transport Wind: WSW 10 mph

### Tuesday:

Weather: Mostly cloudy with a 90% chance of showers and thunderstorms, mainly in the afternoon.

High Temperatures: Above 7000 ft: 64-74° | Below 7000 ft: 74-84°

Low Temperatures (Tue Night): Above 7000 ft: 47-57° | Below 7000 ft: 57-67° | ICP: 41-46°

Min RH: Above 7000 ft: 43-49% | Below 7000 ft: 33-39%

Max RH (Tue Night): Above 7000 ft: 80-90% | Below 7000 ft: 65-75%

20-FOOT WINDS:

**Kaibab Plateau:** Upslope 6-8 mph gusting to 14-16 mph. **Grand Canyon:** Upslope 8-10 mph gusting 16-20 mph.

House Rock Valley: Upslope/upvalley 9-12 mph gusting 18-22 mph.

Chance of Wetting Rain (≥0.10"): 50% Mixing Height:4,000 ft AGL Transport Wind: WSW 10 mph

Lindbergh Hill RAWS

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 43	TYPE OF FIRE: Wildland Fire
FIRE NAME: Dragon Bravo	OPERATIONAL PERIOD: 08/24/25 0600-2100
DATE ISSUED: August 23, 2025	TIME ISSUED: 2000
UNIT: Grand Canyon National Park	SIGNED: Joseph Flores, FBAN

### **INPUTS**

WEATHER SUMMARY: For specifics, please see the attached Incident Weather Forecast.

WEATHER: 70% chance of showers, and continuing into next week.

MAX TEMP: 70-80° MIN RH: 37-42%

20 FOOT WINDS: Upslope 5-7mph G13-15. DIV R-T will have higher winds 8-11, gusts 17-21.

CHANCE OF RAIN >0.1": 60%

### **Fuel Assumptions:**

- GS2 (FM 122): Fast fire spread in continuous grass and sagebrush.
- TU1 (FM 161): Shrubs and litter burn beneath mixed-conifer canopy.
- TU5 (FM 165): Dense young conifers act as shrubs under a mixed conifer overstory.
- TL3 (FM 183): Fire spreads in conifer litter with moderate downed fuels (Doug-fir, true fir, pine, spruce).

### Fire Danger (Bright Angel/Dry Park RAWS SIG (FM Y):

- ERC: 48th percentile
- Bl: 0 percentile

Ignition Receptiveness: Probability of Ignition (PIG) at peak - 40%

Dryness (at peak): 1-hour fuels - 9%, 10-hour fuels 9% 1000-hour fuels 8% (using fuel model G)

Spotting: short range spotting, 100 feet. Spotting potential from roll out in the canyon is low.

### **OUTPUTS**

### GENERAL:

Expect minimal fire behavior on the fire. Internal heat will have limited potential to escape unless pushed by high winds or roll out in the canyons. Without rain initial attack could still encounter low to moderate fire behavior. Strong winds from downdrafts can create high fire behavior and mid-range spotting. This activity could be brief but activate fire temporarily.

### SPECIFIC:

All Divisions: Fire behavior will be low with mostly creeping and smoldering in heavy fuels.

**IA Group:** Variability in rainfall can lead to moderate fire behavior and may occur in new starts before cloud cover and rain suppress fire behavior. Expect holdovers due to dry large fuels.

### **AIR OPERATIONS:**

Turbulence from strong upslope winds in the canyon and storms in the area.

### SAFETY

"Look up, Look down, Look around" is applicable for all hazards besides fires, including the hazards caused by storms, lightning, flash floods, debris flows or strong outflow winds.

### 6. Control Operations/Work Assignments:

TASK: Activate full suppression response utilizing all strategies available to meet the Dragon Bravo incident objectives within the current Temporary Flight Restriction (TFR) area. Monitor and patrol. Spread brush along Telephone Ridge Road. Be available to help other divisions. Monitor and patrol containment lines from the Grand Canyon Rim to the Rock Flats. Repair Road 8910 from suppression damage. Continue suppression repair and seeding. Support water needs for divisions and bucket drops. Continue to protect infrastructure along Hwy 67 corridor.

PURPOSE: Protect values at risk within the Dragon Bravo TFR. Allow the landscape to return to a natural state, post fire. Reduce impacts caused by fire suppression to pre-fire conditions. Ensure water is available for engines and helicopter bucket operations. Protect high value infrastructure.

END STATE: Ensure the safety and welfare of firefighters by adhering to the fundamental firefighting principles and risk management process. All roads, fuels treatments, and dozer lines restored to a pre-fire natural state. Cultural, structural, and resource values are protected, and suppression activities have been rehabilitated as close as possible to pre-fire conditions. Water is easily accessible for fire operations and infrastructure is protected.

### 7. Special Instructions:

### \*\*Initial Attack Resource

Burned Area Emergency Response (BAER) Team Members will be working in various areas of the fire. BAER Team Members are required to check-in and check-out with the DIVS for the area they will be working in.

- If drafting water, please note gallons and draw location on CTRs.
- Road 429, from the junction of Road 22 east to the junction of Road 462, is one-way uphill travel only.
- · Roads 22 and 462 remain two-way travel.
- · Access Big Springs from Road 462 only.
- Contact Jim Roche (REAF) on Command to mobilize ARCHs/REAFs where needed.

UTV assigned: E-510.

### **HEALTH AND SAFETY MESSAGE**

### SAFETY starts with YOU

We are <u>ALL</u> accountable for <u>SAFE</u> behaviors For Day Operations: August 24, 2025

INCIDENT: Dragon Bravo

Day: Sunday Shift: Day

### Major Hazard and Risk:

- > Transition Day- Make sure you know who you are reporting to, review communications and IWI Plan ASK IF you dont know.
- > Severe Weather Review Thunderstorm Safety in the IRPG.
- > Flash flooding- Stay Alert, make sure you are able to get updates from the IMET.
- > Driving Please slow down be alert for animals.
- > Public interactions Public interactions are possible. With all of the closures and the hunting season coming up we may see more people in unauthorized areas.
- > Heavy Equipment Be aware of your surroundings ensure communications.

Standard Firefighting Order #1: Keep informed on fire weather conditions and forecasts.

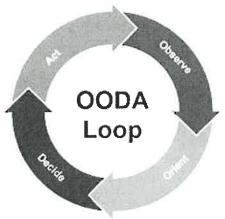

Watch Out Situation #5: Uninformed on Strategy, Tactics and Hazards

Scout your work area prior to engaging if possible. You never know what is out to get you.

### Stay alert!

Your decision making process is constant.

### Thanks from your Safety Team!!

Greg Marfil Ron Plummer Pedro Martinez

### LCES

Must be established and known to **ALL** firefighters **BEFORE** it is needed

### Incident Risk Analysis (ICS 215a) Dragon Bravo 2025-AZ-GCP-00597

BR/DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES					
All	Hazard Trees	<ul> <li>Follow "Hazard Tree Safety" guidelines, IRPG pages 20-21.</li> <li>Post lookouts or use a spotter in mop-up areas with personnel.</li> <li>Don't Park vehicles or take breaks in high concentrations of hazard trees.</li> <li>Establish trigger points for disengagement during high wind events.</li> <li>Remember that the hazard zone extends a minimum of 2 1/2 tree heights.</li> </ul>					
South	Structure Protection & HAZMAT	<ul> <li>Review "Wildland Urban Interface Firefighting" considerations, IRPG Pgs. 11-15.</li> <li>Use "Structure Size-up", IRPG page 12.</li> <li>Follow "HAZMAT Incident Operations" IRPG Pg. 54.</li> </ul>					
All	Heavy Equipment Operations	<ul> <li>Ensure communications are established with operators.</li> <li>Use hand signals if other communications are unavailable.</li> <li>Maintain a 50'-100' exclusion area around equipment and increase it to 2 1/2 times tree height when in timber.</li> <li>Use a spotter when backing.</li> <li>Avoid working below heavy equipment.</li> </ul>					
Ali	Severe Weather	<ul> <li>Review and follow Thunderstorm Safety guidelines in IRPG page 17.</li> <li>Establish "Trigger Points" to withdraw and ensure all know rally site.</li> <li>Use "Risk Management" process to determine retreat criteria and actions, IRPG Pg.1.</li> <li>Carry rain gear and extra food and water if weather limits retreat to ICP.</li> </ul>					
All	Chipping Operations	<ul> <li>Ensure all emergency shut-off devices are tested each day prior to use.</li> <li>Ensure workers are trained in the use of all emergency shut-off devices.</li> <li>Ensure workers hands and feet remain outside of hopper deck</li> <li>Wear fitted clothing, skid resistant footwear, and keep clothing tucked in.</li> <li>Use signs, or cones to alert traffic of work area, and use flaggers to stop traffic when work area congested.</li> </ul>					
All	Flash Flooding	<ul> <li>Post lookouts listen for weather updates by (IMET).</li> <li>Stay out of dry creek beds and gullies during rain/hail/lightning events.</li> <li>Avoid walking in areas with rock, and loose debris during storm events.</li> <li>Avoid walking is single file when coming off hillside.</li> <li>Establish RAWS trigger points on incident radio system for fireline leadership to remove resources prior to severe weather events.</li> </ul>					
Ail	Driving & Traffic	<ul> <li>Practice "Defensive Driving" techniques traveling on all roads and city streets.</li> <li>Use spotters and honk horn when backing.</li> <li>Follow Driving LCES (Lights, Chock blocks, Emergency brake, &amp; Seat belts).</li> <li>Always use headlights and obey posted speed limits.</li> <li>Use chock blocks, turn wheels into hill.</li> <li>Avoid distractions (eating, &amp; cell phones etc.) and use the 3 second rule.</li> </ul>					
All	Unplanned Public Interaction	<ul> <li>Be alert to non-fire personnel in areas with suppression personnel.</li> <li>All non-fire personnel will be escorted while on fireline.</li> <li>Post lookouts to in areas with public to avoid conflicts with mission tasks.</li> <li>Ensure sufficient security to restrict access to exclusion area.</li> </ul>					
All	Wildlife & Livestock	<ul> <li>Watch out for wildlife inside the fire area and along roadways.</li> <li>Clean up work areas and don't discard unwanted food.</li> <li>Pick up after yourself and manage your waste.</li> </ul>					
	Incident Name: Dragon Bravo	Safety Officers: Greg Marfil /Ron Plummer/ Pedro Martinez					
	Operational Period: 08/24/2025	Operations: Dan Guse  Dan Guse					
	Date and Time Prepared: 08/23/2025 1100 Hours	Air Operations: Brian Sexton  Brian Seyton					

### Asbestos Mitigations: North Rim Development Area

Efforts to resolve imminent physical safety hazards from hazard trees in the burned developed area at Grand Canyon National Park North Rim involves working adjacent to burned structures. This work is needed so that further clean-up efforts can be evaluated and planned.

Some concern about exposure to asbestos, known to be found in small quantities on some of the fire impacted structures per 2012 asbestos reports from the park, and other post burn urban interface types of hazardous materials has raised questions about the hazards wildland fire resources might be exposed to

Following discussion with Industrial Hygienists and Contaminated Site Coordinators, a group of mitigations has been developed to prevent exposure for wildland firefighters specific to the Dragon Bravo incident.

### The following are proven mitigations to reduce Haz Mat exposure risk to wildland fire resources.

- Utilize mechanized equipment with HEPA filtered cabs as much as possible
- Do not enter burned structure footprint.
- Minimize disturbance and work within 50 feet of any burned structure footprints.
- Prior to working in areas adjacent to burned structures, wet the area down enough to reduce dust production. Use enough water to keep dust down without creating significant runoff. REQUIRED if not working in enclosed cab.
- Consider wetting down the intended lay of the tree to reduce dust cloud production. REQUIRED if not working
  in enclosed cab.
- The burned structure remains may be wetted down if the tree must be dropped onto the structure footprint.
   REQUIRED if not working in enclosed cab
- If trees are felled onto the structure footprint, they should be left in place within the footprint and the 50-foot buffer area. These trees will be disposed of when the clean-up efforts begin.
- Workers are allowed to voluntarily use N-95 masks or other filtering face piece respirators outside of burned structure footprint for added comfort from particulate matter.
- Following work in buffer areas, gross decontamination of boots and gloves will be performed with water from an engine or bladder bag ensuring soil/ash is cleared from boot lugs before leaving the work site. Hazardous Material can easily be transferred from the work site to your vehicle and other locations.
- Employees are encouraged to wash their hands after working in buffer areas. Do not eat, drink, or use tobacco until after washing or wet wiping of hands following work in buffer areas.
- Obtain industrial hygiene guidance for protective measures for operations beyond those described.

### Other conditions to consider when not in an enclosed cab with a HEPA filter:

- During windy conditions where dust is noticeably being kicked up, it is best to stop operations when working
  around burnt structures and resume when better conditions exist.
- Rainy conditions provide a better, safer opportunity when working around burnt structures, but realize any stone structures can become more apt to crumble and fall.

Thanks for the attention to firefighter safety. If you have questions about these mitigations or other operations within the burned building area of the north rim, please reach out to the Safety group.

Contingency

### **Demobilization**

Air Travelers, DEMOB is located with Resources, please contact us 72 hours prior to your last working day to make flight arrangements.

IMPORTANT: Do not leave the incident without returning your checkout form to DEMOB at ICP

### **Demobilization Steps**

- 1. Checkout Form Stop by DMOB and pick up the demobilization checkout form (ICS 221).
- 2. Supply and Communications Return any items checked out.
- 3. **Ground Support** Get inspection completed.
  - NERV Rentals: As part of the ongoing effort to improve accountability for use of vehicles under the NERV program, both pre and post inspections are now required for each rental (Pool Vehicles as well as individual NERV rentals). It is an expectation of all Incident Management Teams (IMTs) to ensure that these inspections are performed at the incident and documented on an OF-296. Damage of any kind that occurs during the rental period must be reported and included in the package documentation.
- 4. **Weed Wash** All vehicles that have been out to the fireline will need to complete the weed wash located between ground support and the upper portion of ICP.
- 5. Finance Complete financial closeout at the time scheduled below.

### Do not initiate step 6 until you have your signed OF-288 or OF-286 from Finance

6. When steps 2-5 are complete return to DEMOB at ICP to finalize travel.

DEMOB Email: 2025.dragonbravo.demob@firenet.gov

Phone: 484-954-5594 (Do not leave a voice mail)

### DRAGON BRAVO FINANCE PROCEDURES

### 2025.dragonbravo.finance@firenet.gov

FINANCE Help Line: 208-891-7052

### Please submit your documents **ELECTRONICALLY**.

(If you are completing CTRs/Shift Tickets on paper, you can take a picture, save it as a PDF and then email it.)

ALL RESOURCES – When emailing, please include your RO# in the subject line and on all documents. Provide a contact phone number in your email.

For easy document submission, scan the QR code.

Fillable Shift Ticket

Fillable CTR

### At finance submit the following:

- Resource Order
- Manifest/Roster
- Cooperator agreement or contract (w/correct resource highlighted)
- AD Casual Hire Form
- Vehicle Inspection Form

### **Daily** submit the following:

- CTRs
- Shift Tickets

Ensure all CTR/Shift Tickets are signed and dated.

Contracted Resources: Please ensure daily hours worked do NOT exceed operational period without including written justification and supervisor's approval.

### **CLAIMS**

- Fill out OF-289 Property Loss or Damage Report
  - Describe how the fire caused the loss/ damage
  - o Pictures of damage and bring in item
  - o Estimated cost to repair or replace
  - o Any additional information as required
- Return to COMP/CLAIMS Unit Leader at Finance or email to Finance email above.

### <u>De</u>mob

**For FINAL CTR/ST submission,** make a note in your email that attachments are final time projections.

### TRAINING

### INCIDENT TRAINING

### TRAINEE REGISTRATION & EXIT INTERVIEW

DON'T WAIT!

To receive a final training packet you must check in and demob using the QR Code. Prior to demob ensure you receive ink in your taskbook and a performance evaluation.

Brian Lamphiear - TNSP

Lydia Faller - TNSP(t)

916-584-3748 406-360-2406

rist.resources@firenet.gov

### **WE WANT YOUR PHOTOS**

Email them to the Information office

**LOST & FOUND** 

Drop off or pick up at the ICP PIO Trailer

### When the public wants fire information, direct them to these official sources:

Information Phone: 928-268-5610 Hours: 8 a.m. to 8 p.m.

Email: 2025.dragonbravo@firenet.gov

Fire Information Linktree: https://linktr.ee/DragonBravoFire

### **NFFE MESSAGE**

National Federation of Federal Employees (NFFE)
Union Contact Info for Bargaining Unit employees
assigned to this incident:

NFFE-FSC Local 376 President Bradley.Widhalm@usda.gov 602-881-9734

### Nicole Allen

NFFE-FSC R3 Council Vice President Nicole.Allen@usda.gov 931-691-0232

### **Human Resources Message**

### THANK YOU!

Human Resources wants to express our deepest gratitude for your unwavering commitment, dedication, and courage as you carry out your vital role in protecting our communities and natural landscapes. As we witness the challenges you face day in and day out, we are continually inspired by your unwavering resolve and the sacrifices you make to keep others safe. Please know that we stand behind you, supporting you every step of the way. Your work is not taken for granted.

"Through the wild, the flames advance,
A fiery dance, a perilous trance.
Firefighters brave the searing heat,
Their courage, a wildfire's defeat.
With hoses aimed and planes in flight,
They battle on through day and night."

- Erik Ondrejko

Greg Orr, HRSP - (208) 407-7467

### Check-In

Check-In is in-person at ICP on main street

Any questions on the check-in process, please contact:

2025.dragonbravo.checkin@firenet.gov

### . MEDICAL EMERGENCY PROCEDURES

### LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
- Patient Complaint, Condition and Location via Tactical or Command frequency. Red/Priority 1 or Yellow/Priority 2 will trigger Incident within Incident (IWI).

### -Division Supervisor/Operations contacts Communications:

- DIVS or Point of Contact (POC\*) will declare "Medical Emergency" on the Command frequency.
- DIVS or POC\* will use "Medical Incident Report" on back/next page of 206.
- POC\* (Point of Contact) and/or Operations

### **LINE "NON-EMERGENCY INCIDENT" PLAN:**

- Crew Supervisor to contact Division Supervisor with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency. Green/Priority 3 Patients only trigger an Incident within Incident (IWI) if they are being transported to a medical facility.
- Division Supervisor contacts Communications/dispatch:
  - DIVS or POC\* will declare "Non-Emergency Incident" on the Command frequency.
  - DIVS or POC\* will use "Medical Incident Report" on back/next page of 206

### IN-CAMP - 24 HOUR MEDICAL

• Contact MEDL: Mickey Brunelli - (209) 769-2866

### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

### Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat/Long.)
"This will be the Trout Meadow Medical Incident. IC is TFLD Jones. EMT Smith is providing medical care."
