WM

Windmill

This map is not to be used for VFR navigational purposes!

It is primarily designed for identifying hazards and obstacles that may be encountered while flying at low altitudes during air operations.

See FAA "Sectional" Aeronautical Chart for details.

0 1 2 4 6 8 Nautical Miles

This map was produced by the Region 5 Fire and Aviation GIS Lab. GIS data and product accuracy may vary. This map is not to be used for navigational purposes. It is only to be used as a means of identifying vertical obstructions and other known hazards to ensure safe air operations. The Forest Service reserves the right to update, modify, or replace any or all of this data without notifying users.

These datasets were provided by the U.S. Forest Service Pacific Southwest Region (RS) and are served by the U.S. Forest Service Geospatial Technology & Applications Center (GTAC), in cooperation with the U.S. Department of the Interior's Geospatial Platform (GeoPlatform), as part of the Interdepartmental Imagery Publication Platform (IIPP), GeoGIS, Bureau of Land Management; Esri, HERE, Garmin, INCREMENT P, USGS, METANASA, EPA, USDA
