Warning: This map is not to be used for VFR navigational purposes!

It is primarily designed for identifying hazards and obstacles that may be encountered while flying at low altitudes during air operations.

See FAA "Sectional" Aeronautical Chart for details.

This map was produced by the Region 5 Fire and Aviation GIS Lab. GIS data and product accuracy may vary. This map is not to be used for navigational purposes. It is only to be used as a means of identifying vertical obstructions and other known hazards to ensure safe air operations. The Forest Service reserves the right to update, modify, or replace any or all of this data without notifying users.
