3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

- Driving Mountain Roads: Use caution, expect rutted roads, blind curves, steep grades, dust, limited shoulders/turnarounds, and opposing fire traffic. Maintain safe speeds and increased awareness during early morning driving and especially at night.

- Mop-Up / Complacency: Mop-up can create complacency. Maintain LCES and continue watching for containment-line escapes, changing conditions, and hazards within the fire area.

- IWI / Medical: Know the IWI plan. Review the 8-Line Medical Plan and area-specific procedures; ensure all resources understand the process.

EMPHASIS: Maintain situational awareness while driving and follow designated traffic plan. Mop-up does not eliminate risk. Maintain operational awareness through the end of shift.

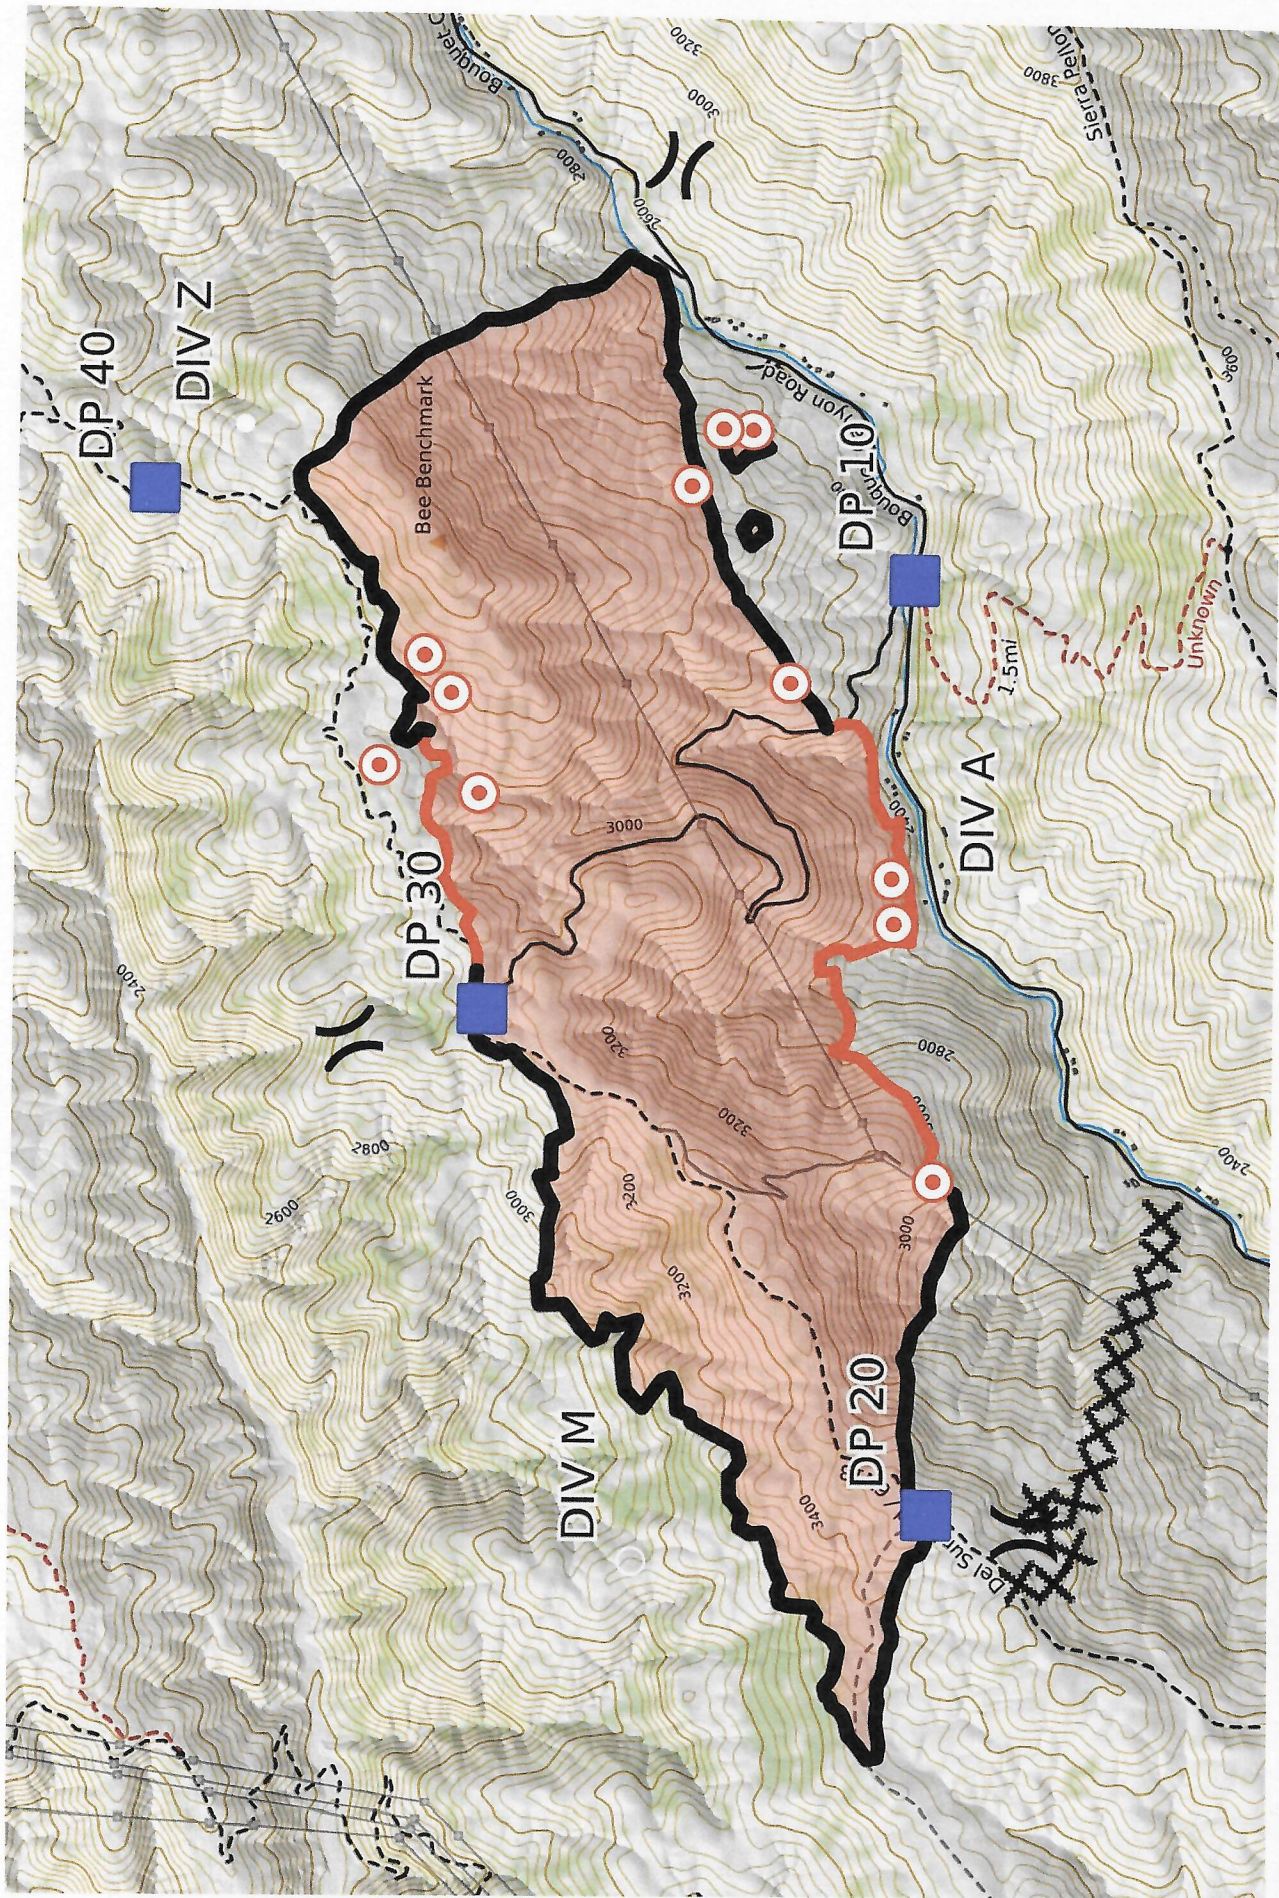

4. Site Safety Plan Required? ☐ No
