

2 DAY IAP Slough Fire (08/28/2026 – 08/29/2026)

Fire code SWZE

OBJECTIVES

- Provide for firefighter and public safety
- Contain all fire north of the Moon Water Point road and keep fire west of the Horse Corn road.
- Minimize impacts to tribal lands and Structures
- Utilize natural features to keep fire between Slough Canyon and Florance Creek drainages where access is limited.

SAFETY HAZARDS

- Radiant heat burns to exposed skin, wear PPE
- Smoke inhalation, rotate personnel into clean air
- Flammable fuels, fill fuel away from open flame
- Aircraft hazards – Bucket drops, retardant drops & sling missions
- Weather, be prepared for cold and wet conditions
- Uneven terrain, wear approved footwear and gloves in case of tripping

Logistics-

Supply orders will be every two days. Plan accordingly and have needs in morning after briefing. Contact Paul Kimpling through ops with urgent needs.

MEDICAL PLAN-Notify Ops immediately. IWI IC will utilize the REMS to facilitate extraction and patient care.
