This topographic map illustrates the Brooklyn Divide RX area, which is approximately 440 acres in size. The map features a variety of terrain types, including green forested areas, tan-colored burned regions from February 2026, and purple-hatched areas designated as Brooklyn Divide PTC. A network of roads is shown, including Travis Creek, Buffalo Creek, and White Man Gulch. Key infrastructure elements include the Brooklyn Bridge, a water tank, and several gates. The map also identifies various event points such as helispots, drop points, and value-at-risk locations. A scale bar indicates distances up to 0.4 miles, and an inset map shows the location relative to Helena. The map is overlaid with a grid of coordinates, with labels like 21, 22, 23, 29, 30, 32, 34, 35, and 36.
