115	772.4	Rubble and Rock Outcrop	Rock	A/D	X	X	Rock						
144	362.2	Typic Vitricryands (side slopes of Mt. Jefferson). Cold; glass; volcanic origin; andisols	Sandy-Loam	A	S-VR	MR	Rhyolite, Andesite, Pyroclastic Ashflows, and Volcanic Ash	2-4	35-65%	X	SVH	0.10	30" to over 60"

Surface Runoff: Very slow, slow, medium, rapid, very rapid; An X means not applicable.

Permeability: Very slow, slow, moderately rapid, rapid

Hazard of Erosion: Slight, moderate, high, very high (severe); Sheet and Rill Erosion: Slight, moderate, high
